DRAFT OF ANTIWAR PACT MADE PUBLIC BY KELLOGG

**Objections Met in New Wording;
Self-Defense, League and Other
Points Discussed in Note**

WASHINGTON, June 24. (AP)—Secretary Kellogg today made public the draft of the treaty proposed for the outlawing of war and his note inviting fourteen world powers to join the United States in signing the covenant in the form transmitted to the governments, at the respective foreign offices, Saturday.

In making public the proposed treaty, which all of the fourteen nations have agreed to consider, Secretary Kellogg pointed out in his note that the text of the draft is identical with that proposed by the United States on April 13, last, except the preamble now provides that the British dominions, India and all parties to the treaties of Locarno are included among the powers called upon to sign the treaty in the first instance.

He also explained in the note that the phraseology of the revised draft in the preamble of the United States to meet the objections raised by the governments of Austria, Czechoslovakia, France, Germany, Great Britain, India, the Irish Free State, Italy, Japan, New Zealand, Poland and South Africa.

Identical notes and copies of the treaty were sent to the governments of Austria, Czechoslovakia, France, Germany, Great Britain, India, the Irish Free State, Italy, Japan, New Zealand, Poland and South Africa.

Secretary Kellogg's note recalled the fourteen powers' attention to the original proposal of M. Briand of France on June 20, 1927, for a treaty for the renunciation of war, and the subsequent negotiations during which the United States submitted to other world powers a preliminary draft of a treaty representing the form of a covenant.

It continued with a review of the circulation by the French government on April 20, last, of a proposed alternative treaty and Secretary Kellogg's explanation of the treaty proposed by the United States for the renunciation of war before the American Society of International Law, April 23, last.

The note included Secretary Kellogg's discussion of the six points of consideration proposed by the French government, comprising self-defense, the League of Nations, neutrality, relations with a treaty-breaking state and universal outlawing of war.

Secretary Kellogg dealt with the six points in the following order: self-defense, the League of Nations, neutrality, relations with a treaty-breaking state and universal outlawing of war.

"The League covenant imposes no affirmative primary obligation to go to war," he wrote. "The League of Nations is a body of states which are under any positive obligation to go to war, such obligation certainly would not attach until one of the parties has resorted to war in violation of its solemn pledges thereunder."

"It was my intention," he said, "to make it clear that the League of Nations is a body of states which are under any positive obligation to go to war, such obligation certainly would not attach until one of the parties has resorted to war in violation of its solemn pledges thereunder."

"The League covenant imposes no affirmative primary obligation to go to war," he wrote. "The League of Nations is a body of states which are under any positive obligation to go to war, such obligation certainly would not attach until one of the parties has resorted to war in violation of its solemn pledges thereunder."

"The League covenant imposes no affirmative primary obligation to go to war," he wrote. "The League of Nations is a body of states which are under any positive obligation to go to war, such obligation certainly would not attach until one of the parties has resorted to war in violation of its solemn pledges thereunder."

OIL BARONS AT GRIPS

**John D. Tries to
Oust Stewart**

**Controversy Between Chiefs
Turning Into Fight for
Company's Control**

**Standard's Head in Chicago
Refuses to Heed Order
That He Resign Job**

NEW YORK, June 24. (Exclusive)—The controversy between John D. Rockefeller, Jr., and Robert W. Stewart, chairman of the board of directors of the Standard Oil Company of Indiana, is developing into a fight for domination of this \$500,000,000 corporation.

The line of battle was indicated today when Mr. Rockefeller issued a statement denying published reports that he was disposing of his Standard Oil of Indiana stock and announcing that "Mr. Rockefeller has been taking and will continue to take such steps in this matter as appear practicable."

The sentiment follows: "It is not the policy of Messrs. Rockefeller, Senior and Junior, or Rockefeller, to make public statements on reports published in the newspapers from time to time in regard to their investments. In view, however, of the interest shown by the public in the Standard Oil of Indiana situation, it seems fitting in this instance to state that the Rockefeller interests have been taking and will continue to take such steps in this matter as appear practicable."

The Rockefeller interests have been taking and will continue to take such steps in this matter as appear practicable.

AUTOMATIC COP GETS ITS MAN

**Photo-Detection Camera in
Church Door Box
Snaps Thief**

NEW YORK, June 24. (Exclusive)—A "photo-detection" camera invented a year and a half ago by a New York policeman, James O'Donnell, got its first test in the actual detection of crime today, and succeeded.

A trigger in the poor box of a church snapped, a flash-light unit and the hidden camera's sensitized plate caught the image of the man who was pilfering the box of \$12.68.

The church was St. Joseph's Roman Catholic Church in the Bronx. The man captured by the mechanical detective was a Charles Callan, a pattern cutter on a job of work, who later confessed.

The elements of this convention which are convinced of the necessity of saving the Democratic party from nullification of the Eighteenth Amendment and from Tammany control of the Federal government, Mr. Rogers said in a statement, "are in agreement on the course of procedure to be followed in the fight."

What this course will be or who are the representatives at the final conference tonight which authorized his statement was not revealed by the conference.

Reverend came from the group, however, that a steering committee, and perhaps an advisory board, will be named for the anti-Smith forces who seem confident of stopping Smith.

Reverend came from the group, however, that a steering committee, and perhaps an advisory board, will be named for the anti-Smith forces who seem confident of stopping Smith.

HIKER BEGS RIDE TO ROB BENEFACITOR
Bandit Relieves Local Man Touring in Michigan of Car and Valuables
FLINT (Mich.) June 24. (Exclusive)—Hitch hikers permanently lost a good friend when Patrick J. O'Day of 5728 Hollywood Boulevard, Los Angeles, was robbed as he entered the south limits of Flint by a man whom he picked up near Chicago and carried to Flint. The ungrateful thief stole O'Day's automobile, worth \$1500, a 35-caliber pistol, \$700 in cash and a watch and diamond stickpin worth \$125.
O'Day told the police that the man asked him for a ride near the outskirts of Chicago and gave him a ride to Flint. He was going to return home to his mother in Bay City. When O'Day reached Detroit the stranger thanked him for the ride and asked if the California tourist was traveling north in Michigan. O'Day offered to take Myers to Bay City, where he had relatives.
Near Flint shortly before midnight the stranger whipped out a pistol. "You have driven this car far enough. Get out!" The thief said. O'Day told police the man searched him thoroughly and then forced him out of the car.
LAW STUDY VIA MAIL SHUT OUT
Bar Committee Moves to Tighten Up Requirements for Prospective Attorneys
DEL MONTE, June 24. (AP)—Correspondence school law courses and private law study were denied recognition in new proposals adopted here in dealing with bar entrance examinations.
Upon motion of Vice-Chairman John E. Bibb of Los Angeles the committee on bar examinations of the State Bar Association passed the proposal. A general tightening on all education requirements for prospective California attorneys is embodied in the Bibb plan.
The employment of a full-time public relations and research expert to direct co-operative work between the State bar and law schools was recommended.
Before final submission to the state bar the proposals will be discussed at a joint meeting of bar examiners and law schools for possible revision.

COAST GUARD TO STUDY ICY DEEP

Specially Equipped Boat to Be Used for Work

Will Cruise Near Labrador and Greenland

Accurate Knowledge of Ocean There Sought

WASHINGTON, June 24. (AP)—A staunch, new, specially equipped Coast Guard patrol boat will leave Boston July 10 with a picked crew detailed to find out something about the vast expanse of icebergs which lie between Labrador and Greenland.

The expedition is being undertaken at the instance of Rear-Admiral Frederick C. Billard, commandant of the Coast Guard, in the interest of the scientific work of the international ice patrol in which a dozen maritime nations are associated. He has ordered that the best of the service's new 125-foot steel patrol boats be selected for the 4000-mile voyage and recognizing the perils likely to be encountered in the practically unknown sea, has directed that the safety of the crew shall be the primary consideration of the officers.

Lieutenant-Commander Edward M. Smith, one of the most noted oceanographers in the government service, who has been with the ice patrol for ten years, will be in command. Lieut. N. G. Ricketts, scientific observer of the International Ice Patrol, will be second in command and the crew of eighteen is being assembled from volunteers and members of the Coast Guard selected for good seamanship and scientific inclinations.

From Boston the expedition will proceed to Sydney, N. B., and then strike out on a voyage which is expected to keep them out of sight of land for the greater part of six weeks or two months. A large reserve supply of fuel oil will be carried on the deck and three radio sets will be used to maintain communication.

The scientific equipment will include an electric salinity apparatus developed by the Bureau of Standards to facilitate study of sea water at various depths, and an electric boat which will permit the frequent taking of samples and temperatures several thousand fathoms down. Heretofore it has been necessary to place the water samples in bottles and wait some time before they could be analyzed, but

VACATIONISTS!

The Los Angeles Times' annual vacation guide, which everyone has been watching for, will be issued this Wednesday, the 27th inst. Many a stay-at-home will change his mind when he sees this mammoth section with its alluring suggestions for hikers, golfers, horseback riders, bathers, fishers, dancers and travel fans.

With the new apparatus this work can be accomplished in about ten minutes.

A special fathometer will be installed on the hull of the vessel to ascertain the contours of the sea bottom by measuring the time it takes a sound wave to travel down and back through the water. Such soundings will be made about every twenty-five miles and will give the first comprehensive idea ever obtained of the ocean bed in this region.

Not only is a complete oceanographic chart to be sought, but accurate knowledge of the plant and animal life in the sea, the currents which govern the movement of icebergs southward into the shipping lanes and the prevailing wind and weather conditions. This information is expected to be of great value to the Hydrographic Office of the Navy, the Bureau of Fisheries and the Weather Bureau.

These government agencies have been invited to make suggestions to the expedition officers, who will cooperate with the Danish Rigs-Commissen oceanographic expedition, which will be in the same waters during the summer.

Loyal Convict Will be Freed

SACRAMENTO, June 24. (AP)—The iron gates of Folsom prison are to open at once for W. Jones, convict serving time from Sacramento county on a robbery charge, because of assistance he gave Guard Deely during the Thanksgiving Day riots.

Immediate parole was granted him today by the Board of Prison Directors. Jones has relatives in England who have asked that he be returned to them.

Prison officials say that Jones was instrumental in saving the guard's life. This is the first instance of a board giving recognition to loyalty on the part of any convict during the riot.

FOUR YEARS OF WORK IN RUINS

Srenuous Task Ahead of Men Studying Lost Hittites

New Chapters of the World's History Discovered

Research Shows This People Perished 1400 Years Ago

CHICAGO, June 24. (AP)—Four years more will be required by the oriental institute of the University of Chicago to complete its field explorations in the land of the Hittites.

The first year's research has brought to America the first scientifically recorded information concerning the biblical people whose empire in Asia Minor, then the known world, perished 1400 years ago.

Orientalists are convinced that Asia Minor, part of the "bridge" which connects the territories of the East with those of the West, the Mediterranean, also is the bridge which will connect our prehistoric ancestors with modern man. And into Asia Minor they are throwing the resources of science to discover the very foundations of that bridge.

YEAR'S EXPENSE \$50,000 It is a labor for the love of it. Antiquarians do not face desert deaths for money. But there must be money. The year's work in the land of the Hittites alone cost \$50,000.

The General Education Board in New York appropriated funds to carry on the work over the five-year period. These funds were augmented by Henry J. and James A. Patten of Chicago, Mrs. W. Murray Crane, wife of the Massachusetts Senator, and Frank G. Logan of Chicago.

"These gifts are making possible the discovery of new chapters of the world's history," says Prof. James Henry Breasted, director of the oriental institute. "They are pure philanthropy with never a single hope of monetary gain. But they cover five-year periods, while the research they make possible covers thousands of centuries. Such oriental research must be and shall be put on a permanent financial basis."

KNOWLEDGE INCREASED Science's knowledge of prehistoric man dates back only a century. In that brief time, as ages go, the scientist has learned the meanings

EARLY FLIGHT TRIALS TURN COURT TO CLAIM OF WRIGHTS

WASHINGTON, June 24. (AP)—An exhaustive investigation into the history of the experiments and discoveries which made aviation possible has just been concluded by the United States Court of Claims and made the basis for its denial of the right of heirs of the late John J. Montgomery of Santa Clara, Cal., to recover \$100,000 as damages from the United States.

One of the early investigators of the possibility of mechanical flight, Montgomery in 1905 devised what the modern aeronaut would call a glider, and after it had been hoisted into the air by balloon it was successful in gliding to the ground with a man aboard on two or three occasions.

KILLS PASSENGER Although the device killed its passenger on one test, Montgomery patented the mechanism which warped its wings and sought to give direction to its glides. He died before it was flown, and was responsible for bringing forward the claim that the Montgomery patent represented the original presentation of the idea on which all flying is based, suing the government for its use without payment in military aircraft.

In defense the government admitted that Montgomery was the first to make use of any surplus remaining from the 1927 appropriation for buildings as the money was set aside for specific buildings and had to be used for those alone.

Now he is learning the meanings of rock formations. He can tell time in thousands of years as a geologist tells the age of a tree by its rings. He has learned how long it takes for hills to be laid waste by the elements. He has learned how long it takes a river to build up new land.

And he has found, imbedded in earth and undisturbed, according to his reckoning, for many hundreds of thousands of years, the spear heads and stone utensils of the earliest prehistoric men. In the Near East the era of these men probably was long before that of the European Stone Age men.

WEBB MAKES RULING ON PRESTON SCHOOL

SACRAMENTO, June 24. (Exclusive)—Money appropriated by the Legislature in 1925 for buildings at Preston School of Industry and all of which was not used in the building program carried out at that time, may be used for new improvements, Atty-Gen. U. S. Webb has ruled, was not due to a saving, but rather a failure to use all the funds made available. The Attorney-General also held it would be

Naval Plans of Spanish Excite French Interest

PARIS, June 24. (AP)—French naval authorities are much interested in intelligence from Madrid that Gen. Primo de Rivera is about to order the laying down of three 17,000-ton cruisers of high speed and armed with 10-inch guns.

This news is all the more interesting because France, being one of the signatories of the Washington naval armament convention, is not free to construct cruisers above 10,000 tons nor arm them with heavier than 8-inch caliber. The comment, therefore, is that the new Spanish cruisers could drive any French cruiser off the sea and could run away from any French battleship.

The Spanish treasury appears, according to naval information, to be easily able to bear an expansion of the Spanish navy to the extent which is being urged upon the French government by the Spanish naval staff.

FOREIGNERS SHUNNED ANGORA, June 24. (AP)—An anti-foreign tendency is seen in an order of the Turkish government forbidding all army and navy officials from entering foreign embassies, legations, consulates and the private homes of foreigners. It is also taboo for military officials to invite foreigners to their own homes.

WANTED ADDRESS Dr. James Barnes, human analyst, 100 students, had donated \$100 for party. Address V. Box 45, Times Office.

BLIGHTED ROMANCE GIVES MODERN SCHOOLS

NEW ORLEANS (La.) June 24. (AP)—Founded on the blighted romance of a dashing young merchant and soldier and the daughter of a Spanish aristocrat of old New Orleans, thirty modern school buildings stand here today and hundreds of children are receiving an education as a result of the broken heart of John McDonough.

McDonough was born in Baltimore in 1788 of Scotch-Irish parentage. Coming to New Orleans shortly after Louisiana was transferred from French to American hands, he set himself up in business and soon became wealthy. He had fought as a rifle man in the battle of New Orleans.

In 1808, McDonough, a favorite in social life, retired from business to devote himself to management of his estates. The young landowner aspired to the hand of Micaela, beautiful daughter of Don Andres Almonaster y Roxas, titled Spanish colonist. But the Almonaster family rejected McDonough's suit because they considered him a commoner, and Micaela became the wife of Baron de Pontalba, a French nobleman.

Bitter over his disappointment McDonough swore his name should live when their titles had sunk to oblivion. He sold his town house and moved to his plantation across the Mississippi River, where for nearly half a century he led a lonely penurious life dedicated to the accumulation of wealth.

When McDonough died the city of New Orleans was still a town of 10,000 people. His estate was valued at \$200,000. The city of New Orleans, which had been a French colony, was now an American city. McDonough's will provided that the money be used to build thirty modern school buildings for the children of the city. The buildings were completed in 1850 and are still standing today.

BOYS AND GIRLS HAVE PARTIES

SACRAMENTO, June 24. (AP)—The boys and girls of the city of Sacramento are having a very successful party. The party was held at the city hall and was attended by many of the city's children. The party was a great success and the children had a very good time.

\$5000 CASH
for LETTERS about local DELIVERY service

THIS unusual contest offers 20 big cash prizes, for simple reports on an everyday topic.

Just write 200 words of praise or criticism for the delivery service, methods, equipment, or employees of some local firm you deal with. Be specific. Give names, dates, details. Tell why.

First prize is \$2,000; 2nd, \$1,000; 3rd, \$500; 4th and 5th, \$250 each; 6th to 10th inclusive, \$100 each; 11th to 20th inclusive, \$50 each. They will go to those who observe most closely, and draw logical conclusions from facts they see.

In case of ties, full amounts of prizes tied for will be awarded each contestant in tie. Judges' decisions will be final. Anyone, anywhere, is eligible—except employees of The General Motors Truck Company or its dealers. There are no other rules.

Don't worry about grammar or fancy writing. What we want is plain facts, plainly told. Contest closes at midnight, July 31, 1928. Your letter must be mailed before then. Address it only to: THE GENERAL MOTORS TRUCK COMPANY, 527 SOUTH BLVD., Pontiac, Mich. Send it to no other address.

FARRER

ONES BEATEN STROKE IN

Johnny Sinks \$500,000 Coveted Crown 70-73-143

BY ALAN Associated Press

OLYMPIA FIELDS, CHICAGO, singing home triumphantly, leading crowds with the great early thatch.

She, young Irishman with million-dollar smile and the habit of being the best-dressed person in the country.

27-year-old Johnny Farrell stepped up to the eight-foot uphill putt on the home green and rammed it home to beat the great Bobby Jones and win the open championship of the United States by a single stroke.

That finishing shot and the final putt from the hole made it possible, a brace of greatest strokes any champion golfer has ever seen. Farrel of the gallant closing of his famous rival and won the open championship of the United States by a single stroke.

He was tied at the end of the round, but he won the match yesterday, each with a 70-73-143 to 72-73-143.

Farrel, the defending champion, had won the title last year, but he was beaten by Walter Hagen, who won the title last year.

Farrel's 500,000 putt on the home green, while the rain poured and a crowd of fully 10,000 looked on, was the greatest stroke any champion golfer has ever seen.

Farrel's 500,000 putt on the home green, while the rain poured and a crowd of fully 10,000 looked on, was the greatest stroke any champion golfer has ever seen.

Robins Win From Giants as Jess Petty Shines

Brooklyn Takes 2-0 Game From New Yorkers

Chicago Cubs Trample Over Pirates, 8 to 1

CINCINNATI, June 24. (P)—Grover Alexander, St. Louis Cardinal pitcher, won his third game from Cincinnati within eight days when he defeated the Reds today, 7 to 4.

Alexander pitched last Sunday against the Reds and won. He went back on Tuesday and beat them and followed with the victory today.

The Reds hit Alexander hard early in the game today and scored three runs up to the fifth inning. St. Louis went ahead in the sixth and when the Reds tied it up in the seventh the Cardinals showed their heavy artillery, winning in the eighth and ninth by clouting for extra bases. Score:

ROBINS WIN

BROOKLYN, June 24. (P)—Jess Petty's superb pitching and a flawless infield defense sparked here today as the Robins defeated the Giants, 5 to 0. Petty held the Giants to six scattered hits and the fast and efficient fielding of Dave Bancroft and Harvey Hendrick took care of the rest. Although the field at the start of the game was a morass due to early rains, the only error for either team was Faulkner's wild throw.

Faulkner went the route for the Giants. In the second inning, Hendrick walked, took a base on a sacrifice, and scored. In the third, Hendrick's double and scored on Bancroft's infield hit. A pass to Carey, Breder's bunt and Tyson's double added the other run in the eighth. Score:

CUBS COLLECT

CHICAGO, June 24. (P)—A star-run attack on Ray Kremer in the third inning today paved the way for the Chicago Cubs' 8-to-1 defeat of the Pittsburgh Pirates in the series opener.

Hack Wilson hit his fourteenth home run of the season in the seventh inning. Hartnett also hit for

extra bases. Score: CHICAGO 8, PITTSBURGH 1.

On July 5 the party enters for Boston and the Junior Olympic boys' team will stop over in New York City en route to the final Olympic trials in the 400-meter run, with Spencer of Stanford and possibly Borch of Southern California as leading contestants. The 400-meter hurdles in which several Southern California boys will compete and the decathlon competition likewise has several Southern Californians.

OBSERVATIONS

By The Innocent Observer BILL MERRY

THIS is hardly football weather, but then, again, the football fan is hardly guided by the temperature. The man who really lives football lives on the new lateral-pass rule, which has just been sent by E. K. Hall of the rules committee to Joe Papp of the National Football League and forwarded by Papp to us for observations.

The new wording of the rule is not designed to hamper the use of the lateral pass, but rather to help matters out by clarifying the ground thing. It caused a lot of trouble last year because the pass was not clearly defined by the word "lateral" and as a result officials so inclined could rule a fumble on one of Pop Warner's reverse plays as a lateral pass, which was a great help to Pop. Take a look at the new rulings:

A protected backward pass is a backward pass (other than one from the snapper-back) which clearly is thrown a distance of approximately two yards or more through the air and is not merely handed to or toward another player.

four bases. It was the second consecutive day in which both Wilson and Hartnett have hit home runs. Hendrick had a double at bat until near the end when he eased up after his team-mate had given him a safe lead. Score:

SHELLENBACK AND RHODES ARE HIT HARD AS PORTLAND WINS TWO GAMES FROM VITT'S STARS

(Continued from First Page)

both runners with a rousing single to right. Johnny Kerr followed with a one-base blow to left and Twombly scored Lee with a double to right. It being the fifth consecutive hit off the old-timer, Johnny Couch, who had been howling the Stars over in easy fashion.

With Rhodes on the mound everybody expected the Stars to start the game. Sigafos singled to center and went to third on Smith's double to left. Boone hit Kerr, and Sigafos scored and Boone was safe on a throw to catch Sigafos. Lee Bourbeau's throw home was too late to catch Sigafos. Lee Bourbeau's throw home was too late to catch Sigafos. Lee Bourbeau's throw home was too late to catch Sigafos.

GET ONE BACK The Stars got one back in the second. With one out Twombly drew a walk and on Twombly's single to center, Heath scored and Twombly's fast singles got past Rego. Sigafos was thrown out at the plate, Smith to Rego. Basier took the third. Twombly's fast singles got past Rego. Sigafos was thrown out at the plate, Smith to Rego. Basier took the third. Twombly's fast singles got past Rego.

Hollywood tied the score in the third. With one out Kerr scored a rousing triple to right center. Twombly's fast singles got past Rego. Sigafos was thrown out at the plate, Smith to Rego. Basier took the third. Twombly's fast singles got past Rego.

The fifth saw the passing of Rego. Twombly's fast singles got past Rego. Sigafos was thrown out at the plate, Smith to Rego. Basier took the third. Twombly's fast singles got past Rego.

Two for Borboa Borboa batted for Hulvey in the Hollywood half of the inning and scored. Twombly's fast singles got past Rego. Sigafos was thrown out at the plate, Smith to Rego. Basier took the third. Twombly's fast singles got past Rego.

SMITH DRIVES TO DUSTY WIN (Continued from First Page) Pardee was third, with Walt May four, and Francis Quinn fifth. Those are the facts of the case, but they aren't important. The important thing was the dust.

FANS IN UNBROOK That night, however, Lefty Yerkas going into the box. He greeted the new hurler with a double to right, scoring Kerr and Twombly. The Stars scored in the second inning. Twombly's fast singles got past Rego. Sigafos was thrown out at the plate, Smith to Rego. Basier took the third. Twombly's fast singles got past Rego.

Missions Beat Indians Twice SAN FRANCISCO, June 24. (P)—The Missions won both games from Seattle today, the first, 7 to 0, and the second, 3 to 1.

Phillete blanked the Indians in the morning contest, while his team-mates pounded Bryan for twelve hits and an easy victory. Carl Holling held the visitors to five hits and won his own game when he tripled in the fifth inning to score Green and Baldwin. The Missions pitched allowed Seattle the only run when he walked a man with the bases loaded, to force in Parker. Score:

OAKS DROP TWIN BILLS TO FAST-GOING ANGELS

(Continued from First Page)

The opener was decided in the first inning with a bit of aid from Tony Governor, the Oaks' center-fielder, and his favorite, Governor let Carl Pittman's single get through him and the Searsh shortstop rammed all the way to third. Burgett followed with a hit and Dittmar scampered home with the only run of the contest.

Cunningham allowed only three Oaks to reach first base and Jimmy Reese was the only copping athlete to get as far as second. Reese doubled in the fifth but Cunningham saw it that he never got any farther than the halfway point.

Generally, when an athlete is given anything in the way of the gift line he proceeds to perform in a terrible fashion, but Cunningham exploded this theory. If any pitcher can be pitched then Cunningham has it. You've got to get in the no-hit, no-run class. That's how good Reese was today.

Wright got a bad start in the afternoon session and all after two were out. De retired Governor and Dean, but Fenton got a single to center. Fenton got a single to center. Fenton got a single to center. Fenton got a single to center. Fenton got a single to center.

A walk to Staley and Wally Hood's home run over the left-field wall tied it up in the second. The secret of why Hood came out of his hitting slump was revealed when it was found that he was using Tex Weatherly's bat. After Weatherly had used it for a few days Wednesday Hood immediately regained to use his bat.

Burgett's single that sent Burgett to third, and Hood's line-drive sacrifice fly to Governor scored what proved to be the winning run in the third. Governor made a sensational running catch of Hood's drive, which looked as though it would be a home or a home run inside the park.

half through, and most of the rest of the game was a long while, relinquishing it on the 100th lap to Kennedy, who had it until the 200th lap, when Smith passed him. Kennedy had the race in the bag, at one time holding a five-lap lead on the field. But his car got tangled up in the race and he was out of the race.

Pedley's Uplifters' Club Horsemen Defeat Hal Roach's Pirates in Polo

SANTA MONICA RIDERS ON TOP

Defeat Invaders by 10 to 6 Margin in Fast Game

Spills Feature Hard-Fought Tilt at Ocean City

Malletmen Have Close Call on Several Occasions

Eric Pedley, dashing young polo Lochinvar, led his Uplifters' Club riders to their fourth straight mallet victory yesterday at the Rustic Canyon Field where the Santa Monica horsemen defeated Hal Roach's Pirates by a 10-to-6 score. The game was one of the most thrilling staged so far on the Uplifters' summer polo program. The spectators were not only treated to a brilliant brand of riding but they also were given a number of thrills in the way of spectacular spills.

Lyle Puckett took the first fall of the game in the opening period when he was thrown over the head of his pony while colliding with Long Jim Colt. Puckett was shaken up but not seriously hurt. Snowy Baker, American star, was the next to figure in a bad spill. Baker is riding off Dr. Harry Wilson in the third period and he was thrown around the turf like a rubber ball when his pony rammed into Wilson's. Snowy, who is made of very strong stuff, did not seem to mind the accident in the slightest and he continued on with his game. Snowy Baker was the shining light of the looser. Snowy rode rings around his team-mates at every turn and he was already with the necessary punch when it was most needed. Eric Pedley, the sportsman physician played one of the finest games of his career. He blocked the usually brilliant Jim Colt to perfection throughout the contest. Colt was only able to slip through with one goal during the tilt.

INDIAN CHAUCHA WINS MARATHON

Smith Second in Palos Verdes Run

Indian Chaucha, of Los Angeles Athletic Club

SHOWING the stuff that has placed him second in two major marathons this season, Indian Chaucha of the L.A.A.C. and Sherman School came from behind in yesterday's Palos Verdes Estates marathon to win by a wide margin over James Smith, a Navajo from Santa Ana, who completed unattached. Chaucha's time of 2:28 m. compares favorably with the time that has been made in other sections in view of the fact that the race was a shuttle affair, with a two-mile stretch.

James Shaw of Fullerton, a veteran of the 1912 Stockholm marathon tryouts, placed third after several of the favorites fell by the wayside. Stanley Hopkins, who with Smith placed first and second in the recent Orange county marathon, held at Fullerton, was fourth, with Kuens of Anaheim and Sid Buttermore in fifth and sixth places.

Jenkins, better known as one of the L.A.A.C. two-milers, looked like a certain winner with the race half finished. At this point he was leading the field by a five miles in after covering the first six miles in 34 minutes. Smith and Humphreys also covered the first six in better time than was made over this distance at the recent Olympic tryouts.

Tom Humphreys, barring Chaucha, showed the best condition and would have pressed Chaucha had he not been forced out with foot trouble. His form seemed flawless and he was reminiscent of his great work when he won from Booth, then the best cross-country man in the United States.

Carlton Waite of the L.A.A.C. favored by many to annex first honors, was forced out after the first eight miles, as was Bartel of Anaheim and several other contestants. Sid Buttermore, a youngster representing the Boy Scouts of America, and running in his first long-distance race, was allowed a fifth place, although he failed to finish. Boyd Comstock stated that his gameness would win him an extra gold medal.

W. S. Cummings was head timer of the affair and was assisted by Doc Stoddard of the L.A.A.C.

FARRELL TRIMS JONES IN OPEN

Wins National Crown Over Olympia Fields

Johnny Sinks \$50,000 Putt on Eighteenth

Best-Dressed Golfer Takes Title to Gotham

(Continued from First Page)

spelled the margin of his defeat on the short sixteenth hole where he missed a short approach from just off the green and took a four to Farrell's par three. That was the last of the series of "three" that punctuated the play-off from start to finish but the big thrill was packed into the final two holes where Jones, shooting birdies on both, made his great bid to save himself—only to have Farrell come back to match every shot and keep that slim, single-stroke margin down to the final thrust into the cup.

There has been a finish to match this sub-par display of golf between two of the greatest young players American golf has developed. It hasn't been seen for a long time. Going to the seventeenth, Farrell hooked slightly the tee shot but a beautiful mashie dead to the pin, slightly less than two feet away.

Jones also was on the green but twenty feet to the left of the cup. Here Bobby facing the stress of another stroke that would mean certain defeat, made his first great finishing stroke, a truly hit putt that sailed into the hole and sent the crowd gasping. The crowd gasped at the sight of the green, where it hit a spectator and dropped, eight feet off, but still in a much better position than Farrell's ball.

Here was the big test for de-baugh Johnny and he met it with a marvelous mashie that never left the line, hit the green and rolled up to within eight feet of the cup. Jones, after having his ball moved four feet back because it had been stopped by a spectator, chipped inside Johnny's three to one side of the cup and seemingly certain of his third hole, he pulled his recovery across the fairway and into the rough, making still fifty feet of the green.

JOHNNY MEETS TEST

Bobby, also wild, sent his spoon shot into the crowd at the left of the green, where it hit a spectator and dropped, eight feet off, but still in a much better position than Farrell's ball.

Here was the big test for de-baugh Johnny and he met it with a marvelous mashie that never left the line, hit the green and rolled up to within eight feet of the cup. Jones, after having his ball moved four feet back because it had been stopped by a spectator, chipped inside Johnny's three to one side of the cup and seemingly certain of his third hole, he pulled his recovery across the fairway and into the rough, making still fifty feet of the green.

HOLE-BY-HOLE STORY OF FARRELL'S OPEN VICTORY

OLYMPIA FIELDS, Chicago, June 22

Bobby sank the long one for his second successive stroke to be one to the hole. Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole twenty-four, 183 yards, par 3—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole twenty-five, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole twenty-six, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole twenty-seven, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole twenty-eight, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole twenty-nine, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole thirty, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole thirty-one, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole thirty-two, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole thirty-three, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

Hole thirty-four, 415 yards, par 4—Jones' iron was twenty-four feet to the right of the pin, while Farrell was inside by thirteen feet. Jones pulled four feet over, while Farrell stopped on the lip for half in 3.

LESTER STARS IN NET EVENT

Wins Two Hard Matches in Palomar Tourney

Neville Crushes Little by 6-0, 6-0 Scores

Ciano, Kussman, Johns All Take Default Matches

Pat Lester furnished the excitement in the second and third rounds of the members' tennis tournament at the Palomar Tennis Club yesterday.

Lester won two matches, the second, a three-set upset that brought out some of the best play ever seen on the courts of the Culver City Club. The concluding rounds of the tournament are scheduled for next week-end and are bringing together some of the club's best members. Art Kussman, Joe Ciano and Van Duden are scheduled for next week-end and are bringing together some of the club's best members.

After winning a convincing victory over Durand by scores of 6-2, 6-4, 6-3, Lester, the star of yesterday's play, hooked up with Reiserberg in the afternoon and came away with a hard-fought match. The scores were 6-2, 6-4, 6-3. Lester was favored to win and did make a terrific match of it, but couldn't quite make the grade against the hard-socking Lester.

Verne Neville completely crushed Roy Little in another feature match, by scores of 6-0, 6-0. Neville, by playing unbeatable tennis. A. D. Candler furnished an upset in his victory over Curt Curroff by scores of 6-2, 6-3. The results:

Wesman defeated Kraker, 6-2, 6-4. De Loy defeated Durand, 6-2, 6-4. Schaefer defeated Durand, 6-2, 6-4. Neville defeated Durand, 6-2, 6-4. Candler defeated Curroff, 6-2, 6-3. Lester defeated Durand, 6-2, 6-4.

DODGE BROTHERS, INC.

Announce
the Appointment of

THOMPSON - DEJARNETTE CO.

... as ...

Dodge Brothers Dealers for
the City and County
of Los Angeles

Succeeding

Albertson Motors, Inc.

C. W. Thompson, president of the Thompson-DeJarnette Co., has represented Dodge Brothers since 1914 and is one of Dodge Brothers original dealers. J. J. DeJarnette has been closely associated with Mr. Thompson since 1915. Both have established an enviable reputation as highly progressive and outstandingly successful automobile merchants in the Middle West.

The Thompson-DeJarnette Co. has purchased the assets of the Albertson Motors, Inc., and sales and service of both Dodge Brothers Motor Vehicles and Graham Brothers Trucks will continue uninterruptedly in the same locations;—Main Passenger Car salesroom, 1540 So. Figueroa street—Main Truck Division salesroom, 707 East Seventh street.

A Statement

by

C. W. Thompson

I appreciate the added trust and confidence placed in me by Dodge Brothers, Inc., in appointing my associate, J. J. DeJarnette, and myself, their dealers in the City and County of Los Angeles. Through the friendliness of Fred S. Albertson, we have been able to take over the assets, buildings and admirable sales and service equipment of Albertson Motors, Inc., and we pledge to the present and future owners of Dodge Brothers Motor Cars and Graham Brothers Trucks our fullest cooperation. We are proud and happy in coming to Los Angeles.

Signed,

C. W. Thompson

Dodge Brothers, Inc., are deeply gratified to announce the appointment of such signally successful business men as their representatives in this territory to continue the excellent representation of the past Dodge Brothers, Inc., appreciate the patronage of the people of Los Angeles City and County and expect to merit its continuance.

A Statement

by

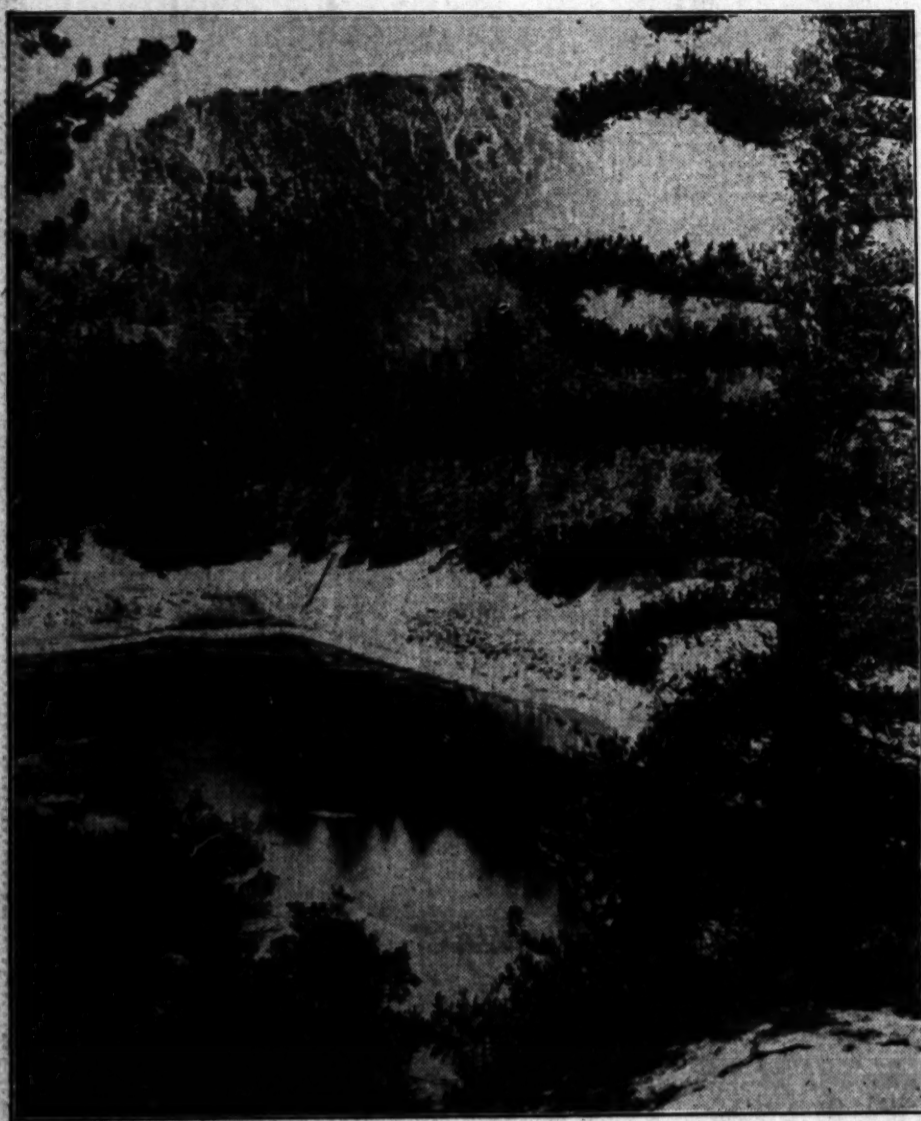

Fred S. Albertson

My retirement as Dodge Brothers Dealer for the City and County of Los Angeles marks the close of an extremely happy and successful business connection. I am sincerely appreciative of these pleasant years of association with Dodge Brothers and I know that the Thompson-DeJarnette Co. will not only enjoy the success and happiness that have been mine, but I feel confident they will go onward and upward to even greater achievement and success as Dodge Brothers dealers here.

Signed,

F. S. Albertson

County Establishing Another Park in Scenic San Gabriel Wilderness

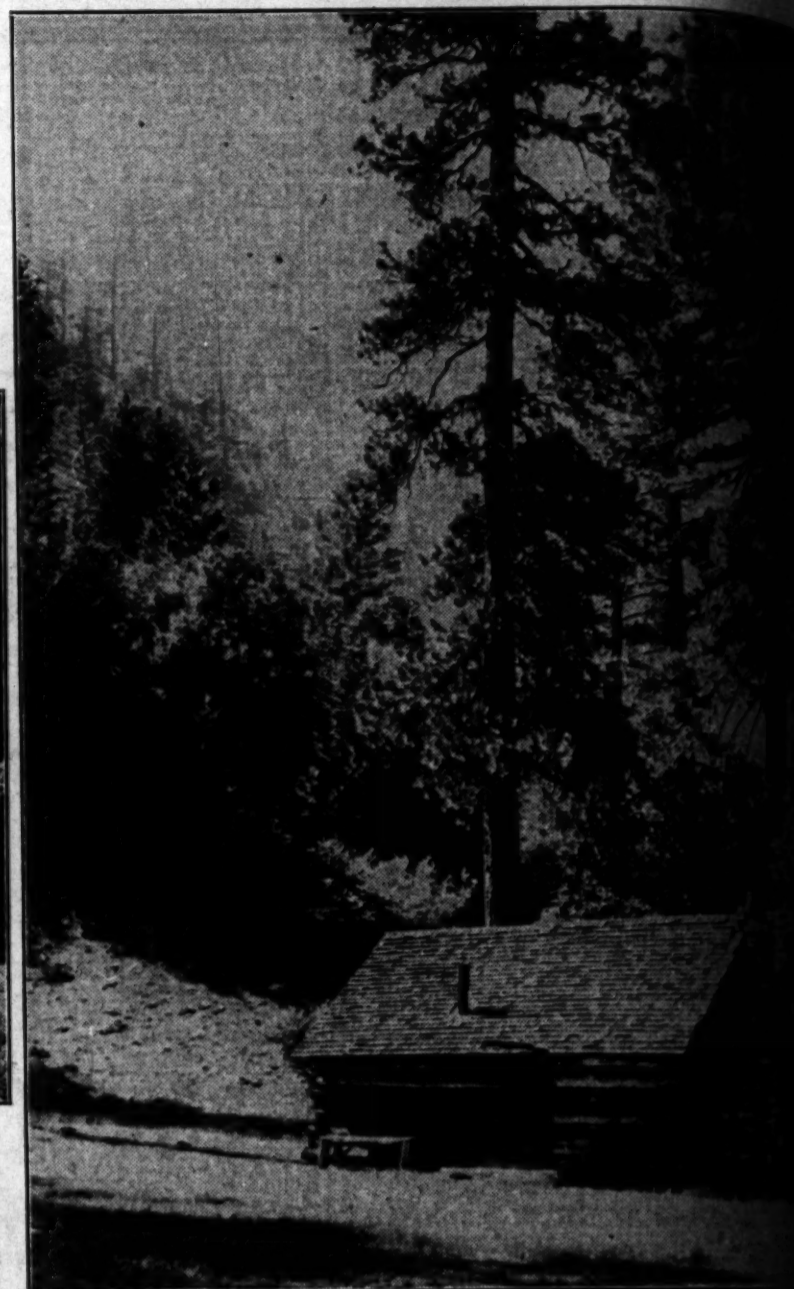

Picturesque Crystal Lake in the Heart of the San Gabriel Mountains.

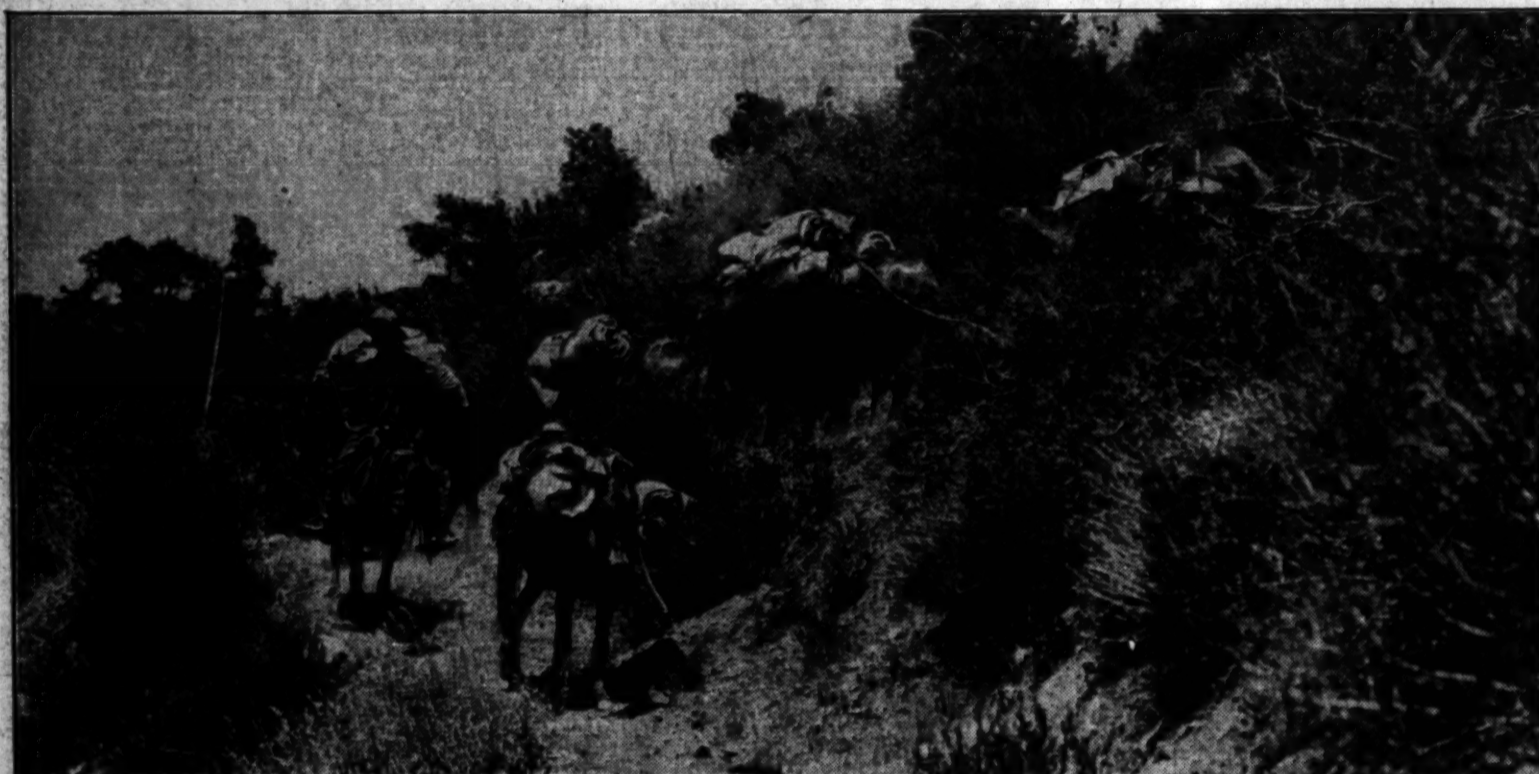

DEVELOPMENT of a 1290-acre section of heavily timbered lands in the San Gabriel-Sierra Madre mountains as a new Los Angeles county park was started last week when a crew of fifty men was put at work establishing construction camps. Crystal Lake Park, as the new project will be known, will be easily accessible to the motorist with the completion of roads provided for in construction program. At the present time Crystal Lake, a picturesque little body of water surrounded entirely by towering mountain peaks, may be reached only over a pack trail. The lake will be the center of activities when the park is opened. Photos on this page convey an idea of the beauty of the district embraced within the park boundaries. Because of the difficulty of reaching the area, few persons other than forest rangers, are familiar with it. (Photos by County Seat News Service.)

OUR HISTORY IN PICTURES 1063 The Story of the Hawaiian Islands. Queen Liliuokalani.

EVER SINCE 1854 THERE HAD BEEN TALK OF ANNEXING THE HAWAIIAN ISLANDS TO THE UNITED STATES. THE AMERICAN RESIDENTS OF HAWAII WHO CAME TO PLANT SUGAR AND COFFEE HAD GROWN IN NUMBERS AND WEALTH UNTIL THEY HAD BECOME A POWERFUL FACTOR IN THE AFFAIRS OF THE ISLANDS.

THE NATIVE KINGS CONTINUED TO RULE, BUT IN 1897 THE WHITES UNITED AND FORCED THE WEAK KING KALAKAUA TO GIVE HAWAII A NEW CONSTITUTION, GRANTING FOREIGNERS THE RIGHT TO VOTE, AND MAKING OFFICERS OF THE ROYAL CABINET RESPONSIBLE TO THE LEGISLATURE INSTEAD OF TO THE KING.

IN 1891, TROUBLE BEGAN WHEN QUEEN LILIUOKALANI, KALAKAUA'S SISTER, SUCCEEDED HIM TO THE THRONE. SHE WAS A SPIRITED WOMAN AND DETESTED THE CONSTITUTION HER BROTHER HAD BEEN MADE TO SIGN.

LILIUOKALANI WAS DETERMINED TO REPEAL THE CONSTITUTION OF 1894. SHE ESTABLISHED A LOTTERY. TOMORROW—THE

MONDAY MORNING.

"No, just window shoppin'."

CHUCKLES from LIFE

His Souvenir
My sweet and lovely Valentine
Of fifteen years ago.
I pen this little record of mine
With wish to let you know
I've not forgotten—I am true
To every souvenir of you.

The little glove you lost I keep—
Your handkerchief I prize;
And frequently in dreamy sleep
I see your lovely eyes.
But I admit with honest shame—
I cannot quite recall your name.
I've penned the record—I've sung
The song—
And now I rack my brain.
To whom did this small glove be-
long?
I really can't explain
How came I by this bit of lace,
I can't recall the owner's face.

P. S.
I must be wrong!
Upon my life!
The things belong
To my own wife!

MABEL HOUGHTON COLLYER.

About Face
Floppy: I really think he's the
world's most attractive man. We
spent hours together on the ship
coming home last summer and he
was frightfully entertaining. He's
read! simply everything and, my
dear, he's a perfectly divine dancer.
He gave me the whirl of my life—
actually monopolized about half my
time, but he's really a delightful
person to be with—so entertaining
and everything, do you know what
I mean?
Mopey: Isn't it nice you know
each other so well? You see, he's
coming to town for the McTav-
lins' dinner-dance next week.
Floppy: Oh, is he really? Well,
of course, my dear, you know I've
only just met him—I mean we
hardly know each other at all—I
mean he probably won't even re-
cognize me . . .

KELLOGG REVEALS DRAFT
OF WAR-OUTLAWING PACT

Secretary of Defense Unimpaired and
Violation Releases All, Says
Secretary in His Note

(Continued from First Page)

Secretary Kellogg's note to the Senate is a frank and candid statement of the situation. It is a statement of the fact that the United States is not a party to the proposed treaty, and that the United States is not bound by the treaty. It is a statement of the fact that the United States is not a party to the proposed treaty, and that the United States is not bound by the treaty.

Secretary Kellogg's note to the Senate is a frank and candid statement of the situation. It is a statement of the fact that the United States is not a party to the proposed treaty, and that the United States is not bound by the treaty.

Secretary Kellogg's note to the Senate is a frank and candid statement of the situation. It is a statement of the fact that the United States is not a party to the proposed treaty, and that the United States is not bound by the treaty. It is a statement of the fact that the United States is not a party to the proposed treaty, and that the United States is not bound by the treaty.

DRAFT OF ANTIWAR TREATY

WASHINGTON, June 24. (AP)—The draft of the multilateral antiwar treaty proposed by Secretary Kellogg reads, in part, as follows:

"The President of the United States of America, the President of the French Republic, His Majesty the King of the Belgians, the President of the Czechoslovak Republic, His Majesty the King of Great Britain, Ireland and the British Dominions beyond the seas, Emperor of India, the President of the German Reich, His Majesty the King of Italy, His Majesty the Emperor of Japan, the President of the Republic of Poland,

"Deeply sensible of their solemn duty to promote the welfare of mankind; "Persuaded that the time has come when a frank renunciation of war as an instrument of national policy should be made to the end that the peaceful and friendly relations now existing between their peoples may be perpetuated;

"Convinced that all changes in their relations with one another should be sought only by pacific means and that the peace of the world can be maintained only by the observance of the principles of justice and equity; "Resolved to promote the welfare of mankind by the observance of the principles of justice and equity;

"The revised principle is well recognized. So far as the Locarno treaties are concerned, any government has felt from the very first that participation in the antiwar treaty by the powers which signed the Locarno agreements, either through signature in the first instance or thereafter, would meet every practical requirement of the situation, since in such event no state could resort to war in violation of the Locarno treaties without simultaneously violating the antiwar treaty, thus leaving the other parties thereto free, so far as the treaty-breaking state is concerned.

"The government of the United States has welcomed the idea that all parties to the treaties of Locarno should be among the original signatories of the proposed treaty for the renunciation of war and provision therefor has been made in the draft treaty which I have the honor to transmit herewith. The same procedure would cover the treaties guaranteeing neutrality to which the government of France has referred.

"Adherence to the proposed treaty by all parties to the other treaties would completely safeguard their rights since subsequent resort to war by any of them or by any party to the antiwar treaty would violate the latter treaty as well as the neutrality treaty, and thus leave the other parties to the antiwar treaty free, so far as the treaty-breaking state is concerned. My government would be entirely willing, however, to agree that the parties to such neutrality treaties should be original signatories of the multilateral antiwar treaty, and it has no reason to believe that such an arrangement would meet with any objection on the part of the other governments now concerned in the present negotiations.

"REVISION MADE "While my government is satisfied that the draft treaty proposed to it on April 13, could be properly accepted by the powers of the world without change except for including among the original signatories the British Dominions, India, all parties to the treaties of Locarno and, it may be, all parties to the neutrality treaties mentioned by the government of France, it has no desire to delay or complicate the present negotiations by rigidly adhering to the precise phraseology of that draft, particularly since it appears that by modifying the draft in form though not in substance, the points raised by other governments can be satisfactorily met and general agreement upon the text of the treaty to be signed be promptly reached.

NOBILE ABOARD
CITTA DI MILANO

(Continued from First Page)

Czecho-Slovak meteorologist. Then there is the Swedish pilot of the plane.

NOBILE INJURED IN
FIGHT WITH ICE

BERLIN, June 24. (AP)—Graphic descriptions of the rescue of Gen. Nobile sent here from Kings Bay to Die Welt Am Montag, a weekly, relate a fresh accident to the Italian explorer.

The dispatches say that the ice started to break up under the Nobile camp and that he and his companions fought a desperate battle against tossing floes. One of the shifting cakes caught the leader of the expedition and fractured his leg.

The dispatches state that Nobile was given medical treatment on the steamer Quest in Hinlopen Strait and that his condition is critical. An SOS message from the castaways gave the first word to the rescuers that heroic measures were necessary to save the six men on the ice, the message saying the floes were drifting northward, away from land, and that they were melting.

Italian and Swedish aviators at once set out on their perilous project of landing planes on the tossing floes. At the same time they tried to get word to the land parties making their way toward the marooned men with dog sledges, urging them to greater speed.

The dispatches give high praise to the Swedish flyers who managed a landing and a take-off despite the extreme peril of the un-

TURKEY SETS RECORD
HUNTSVILLE (Ark.) June 24.

(Exclusive)—J. M. Deagan of Huntsville has a brown turkey hen that has set a unique record for laying eggs. She has laid forty-four eggs in as many successive days. The hen is more than a year old.

Most of the farms in Denmark are under twenty-five acres in extent.

OTHER PARTIES WELCOME

"Moreover, as stated above, my government would be willing to have included among the original signatories the parties to the neutrality treaties referred to by the government of the French Republic, although it believes that the interests of those states would be adequately safeguarded if, instead of signing in the first instance, they should choose to adhere to the treaty.

"I have been instructed to state that the government of the United States is ready to sign at once a treaty in the form herein proposed. If the governments of Australia, Belgium, Canada, Czecho-Slovakia, France, Germany, Great Britain, India, the Irish Free State, Italy, Japan, New Zealand, Poland, South Africa and the United States can now agree to conclude this antiwar treaty among themselves, my government is confident that the other nations of the world will, as soon as the treaty comes into force, gladly adhere thereto, and that this simple procedure will bring mankind's age-long aspirations for universal peace nearer to practical fulfillment than ever before in the history of the world.

CLUB VISITS BAY CITY

Members of Pot and Kettle Will Hold Joint Session

SAN FRANCISCO, June 24. (Exclusive)—Eight members of the Los Angeles Pot and Kettle Club, headed by President G. A. Hallenbeck and Vice-President W. G. E. H. H., arrived here today and tomorrow night will be guests of the San Francisco Pot and Kettle Club at a "get together" banquet at the Palace Hotel.

The San Francisco club is an offshoot of the Los Angeles organization and was organized one year ago with Murray Jacobs, president. Membership in both is restricted to household furnishing dealers and manufacturing agents and the clubs were organized to bring about cooperation between dealers in Los Angeles and San Francisco.

DENIES RECEIVING SIGNALS

OSLO (Norway) June 24. (AP)—Messages from Moscow replying to specific requests for information stated today that the icebreaker Malin has reported it received no signals from the Latham seaplane, whereas Roald Amundsen and five companions went in search of the crew of the dirigible Italia.

Now that's what I call performance

You'll say it... as so many thousands have before you... once you've driven this All-American Six. "Now that's what I call performance." And you'll have reasons... plenty of reasons... no matter how strong a statement you want to make.

Performance to be sure. Here's real performance. Such as only a big, sturdy kind of a car can display. Such as you find only in a car with a brute of an engine. Not just "flash-in-the-pan" performance. But performance that

will thrill you tomorrow... next November... a year or two from today.

For All-American performance is protected. Made permanent by All-American principles of design. By a full pressure oiling system... triple safeguards... filters for gasoline, air and oil.

Drive the All-American Six... and experience real performance. We'll gladly provide the car. Drive it a mile... ten miles or fifty... and you'll want to keep it forever.

3-Door Sedan, \$1045; Landau Coupe, \$1045; Sport Roadster, \$1075 (wire wheels and spare tire extra); Phaeton, \$1075; 4-Door Sedan, \$1145; Cabriolet, \$1155; Landau Sedan, \$1265. POTRERO FIELD SEES ACTIVITY

Associated Builds Derrick for Fourth Well

Promising Signs Found in Hole Going Down

Other Concerns Interested in Producing Area

After two years of starting and stopping, the wheels finally have begun to turn in the Potrero field. With one well on production, one shut in, and another drilling, the Associated Oil Company has started to build a derrick for its fourth well.

The new project is known as the Pacific-Southwest No. 1, being situated on a 120-acre lease belonging to a local bank. The hole will be drilled as an offset to the Associated's Cypress No. 2, which now is on production. The exact location is 400 feet south of the producer.

The Associated's Vorthies No. 1 on a five-acre lease, has picked up two oil showings in a week. The first was found at 2000 feet and the other at 2400 feet. The hole now is down 2500 feet. It is expected that another showing will be struck at about 2700 feet and the producing sand at about 4000 feet.

The Vorthies well is reported to be correlating identically with the Cypress No. 2. It indicates that the structure is apparently rather flat, no sharp dip being in evidence. This would seem to promise considerable length or width for the field.

Among the individuals and organizations which now hold rather extensive leases or fee property at Potrero are Fred V. Gordon, Hall-Baker, Sun Oil Company, Western Oil and Refining Company, Associated Oil Company, Signal Gasoline Company and Oceanic Oil Company.

The Oceanic has just purchased for a reported consideration of \$12,500, two lots on Prairie avenue, adjoining the reserve strip on the west side of Ingwood Cemetery.

Associated is reported to have paid the Vorthies family the \$18,000 cash bonus on its five-acre lease, which was agreed on in the original lease.

Cost Figuring Course Offered for Engineers

A practical engineering course in cost estimating will meet at University College, the downtown evening school of the University of Southern California at Seventh and Los Angeles streets, Tuesday, the 26th inst., at 6:10 p.m., in charge of Prof. Robert Fox, head of the department of civil engineering at the university.

The group will meet on Tuesdays and Thursdays from 6:10 to 7:50 p.m. for eight weeks, on the third floor of the Transportation Building, 122 East Seventh street.

FAMOUS OLD MINE TAKEN ON OPTION

Storm Cloud Operator Acquires Senator from Phelps Dodge

PRESBOTT (Ariz.) June 24. (Exclusive)—The Senator property, on the upper Hassayampa River, one of the famous producers of pioneer days, is reported to have been optioned from the Phelps Dodge Corporation by Radford Balter of the Storm Cloud mines, which adjoin the Senator.

It is proposed to use the long Senator tunnel for cross-cutting over under Storm Cloud ore bodies, which thus may be economically mined. The Phelps Dodge Corporation is being made for erection of a 300-ton selective flotation mill, to handle base ores that have been developed by the purchasing company, which now is running a fifty-ton plant and making regular shipments of concentrates to the smelter.

The Senator, on which is an old mill, was worked thirty years ago by the Commercial Mining Company, a Phelps Dodge subsidiary which also operated copper properties near Mayer and in Copper Basin.

Much apprehension has been shown in Jerome, Clendenen and other Verde district points over the proposed transfer of the Senator. The Senator, on which is an old mill, was worked thirty years ago by the Commercial Mining Company, a Phelps Dodge subsidiary which also operated copper properties near Mayer and in Copper Basin.

There has come assurance that work is to be continued on the Extension as at present, under the same management, with any change made slowly, possible leading to still greater activity and to larger production. LAWDALE WELL PENDING

San Clemente Company Planning Another Project Near Site of First Venture

Another well for the Lawdale district is to be started by the San Clemente Oil Company, which has been drilling in that area for the last two years. It is understood that the new well will be drilled at a location northeast of the present San Clemente well, which was making a production test during the week, and which, according to field reports, is showing up better than any of the previous tests in that neighborhood.

The San Clemente No. 1 well, according to observers who have had an opportunity to look it over, made about 175 barrels by swabbing, and looked as though it might make a successful pump, although it showed little tendency to flow. After it had swabbed for a day or two, the line broke, and dropped the test. The test was interrupted for several days while the crew reworked the well. A test of the oil, which flowed to the pump, showed a gravity of 31 deg. Some gas was present.

The bottom of the San Clemente is about 9500 feet. The last casing was set at 5750 feet, below which point, it is said, the drill went into the oil. The well is now being reworked to a depth of 100 feet of saturated oil sand.

The Shell company and the Union Oil Company hold considerable acreage in the Lawdale district, and are watching the San Clemente operations with considerable interest. Union has never done much drilling in that immediate locality, but Shell finished the James E. O'Donnell well, near the San Clemente project, a few months ago, without much success.

MILHAM-ELLIOTT AGAIN IN WORK

Drilling Planned in Deep Kettleman Hills Hole

Bad Fishing Job Finished, New Case Almost Ready

Numerous Experts Expect Oil at Greater Depth

The Milham Exploration Company is doing some genuine pioneering for oil production up in the Kettleman Hills. Having failed to develop a single barrel of crude production during its three years in California, although it has discovered a remarkable gas field, the company now is endeavoring to salvage its deep well at Kettleman.

This well is the Milham-Elliott No. 1. In its quiet way it went along down to a depth of 7250 feet, where it is now endeavoring to set a string of six-and-one-quarter-inch casing. It has succeeded in getting 5500 feet of the casing down the hole and if it gets the other 500 feet into place it will be in shape to proceed with the drill.

There are quite a number of operators who cling to the opinion that there should be a good pool of oil in the Kettleman Hills if it is not too deep. The Milham company has gone a long way with a hole 7250 feet deep, and seems to have the feeling that if it can go another 500 feet it may be rewarded for its diligence and courage.

commission has the power to do this without resorting to prorating of production. It is declared by Adams that the asserted overproduction situation in the United States is due to the influx of for-

oil as a means of increasing prices. It was admitted at the recent hearing before the Railroad Commission that the prorateing agreement among the operators of the oil fields in which the prorateing was reached is in the belief that the antitrust law does not apply to oil production.

Another question asked by the opponents of the prorateing order is as to why a production as low as 100,000 barrels a day is estimated as the capacity should be put on the Yates field while oil production is not similarly curtailed in other sections.

The situation in the Yates field is further complicated by river-beds and the fact that the holders of these points out that the Legislature has laid down rules for such

leases and they inquire how the
commission is going to consider
them.

Glab in Mortal Fear of Wife, Brother Relates to Police

NOTE PRESENTS ANOTHER CLEW

Man to Whom Widow Went Recently Sought

Kin of Druggist Institute Private Inquiry

Would Like to Know Where Inheritance Went

John Glab feared for his life as long as a year ago and on a recent visit east told his brother that he would "probably be bumped off, and if I am, you will know that I was at the bottom of it." This statement was made yesterday, police stated, by the brother, W. Glab, who arrived here Saturday.

For some unknown reason my brother feared his wife," the brother declared, "and expected to meet a violent death just as he did when he was slain last Monday night at his Ventura Boulevard home."

NOTE NEW CLEW
Completed with the brother's information, police yesterday were attempting to trace the man to whom Mrs. Glab, who with her 11-year-old niece Betty Kiser, is charged with Glab's murder, is said to have carried an introductory note which recommended her as "being 100 per cent safe."

NOTE NEW CLEW
The two officers revealed for the first time that the introductory note was discovered in Mrs. Glab's personal effects when the detectives made a search of a clothing closet in the Glab home, and which was locked at all times by the mistress of the household.

ANOTHER MAN SOUGHT
Although two persons are now held as material witnesses in the case, detectives revealed that still another man, for whom they have been searching for three days, is wanted by them.

Whether the other man sought has any connection with the introductory note was not revealed by the detectives.

W. Glab arrived Saturday from his home in Dubuque, Iowa, with Mrs. C. W. Ziepprecht, a sister. Yesterday he said that so far as he knows now, his brother was without funds when murdered.

The undertakers in Van Nuys have less than \$10 found on his body," Mr. Glab said yesterday, "although it was reported he had \$44 on him when slain."

LAWYER RETAINED
This was confirmed by the Van Nuys Undertaking Parlor, where Glab's body is being prepared for shipment to Iowa for burial.

Mrs. Glab and her niece spent a quiet Sunday in the County Jail, where they are being held pending preliminary examination tomorrow before Municipal Judge Wood. Mrs.

RECORD CRACKS WIFE'S NERVES

"Uncle Josh" Number Played Too Often on Phonograph Causes Her to Rebel and Leave Home, Husband Tells Court in Successful Divorce Plea

A phonograph record broke up his home. This was the burden of the story told by Hector Dallas before Superior Judge Blake seeking a divorce from his wife, June.

Dallas and his wife lived on a farm in the San Fernando Valley he told the court. He was very fond of talking phonograph records. His favorite was "Uncle Josh in the City of New York."

"I used to play it pretty often for I didn't get tired of it," he testified.

Marion Harris was without visitors yesterday in her cell. It was learned yesterday that Glab's brother and sister have retained a lawyer and that efforts will be made to find out what has become of the man's once large estate.

He received one payment from his father's estate of between \$4000 and \$5000 since the first of the year," the brother said yesterday, "and from what I can learn he has nothing at all."

Mr. Glab said that his brother had received the bulk of his inheritance within the past two or three years and that his share in the father's estate has been practically depleted.

GUN HUNT FAILS
"Still he has received large sums of money from the estate since the death of our father," Mr. Glab said yesterday. "Besides I wasn't the kind of man to spend everything, he always had something laid away."

What steps are to be taken by the brother and sister, or by Mrs. Martha Glab, divorced wife of the murdered man, were not revealed yesterday. Mrs. Glab also arrived Saturday from Seattle with Betty, their 8-year-old girl.

Efforts of police to locate the gun with which Glab was murdered have so far proved futile, and officers yesterday were frank in their statement that they do not think the \$2.25 caliber revolver taken from Earl Parker, 617 West Santa Barbara street, is the murder weapon.

Parker is being held under an old grand-larceny indictment against him as the result of asserted liquor operations. Police are checking his movements in connection with the Glab case.

Parker came into the case, police said, when they learned that he was very close to Mrs. Harris for many years, and that another \$2.25 caliber revolver which he was admitting owning had disappeared. Parker said it was stolen.

PHILIPINO TO MAKE TOUR
To further the cause of Philippine independence, Hilario C. Moncada, president of the Philippine Federation of America, will leave Los Angeles Friday on a State-wide tour during which he will deliver four public lectures and attend three banquets given by countrymen in his honor.

"My wife never said much, although sometimes she would leave the room. Then one night when I put the record on she ran to the machine, grabbed the record off and threw it to the floor, breaking it into a thousand pieces."

"I've heard enough of that record and seen enough of you," she angrily exclaimed.

"June put on her hat and coat and left. I have never seen her since," Dallas concluded.

The decree was granted.

ATTACKER BEATEN OFF BY WOMAN

Autoist Kidnaped by Man Who Offered to Fix Tire; She Escapes After Fight

Choked unconscious, kidnaped, driven to a secluded alley in Glendale, where she succeeded in retaining her liberty after a terrific struggle, is the experience Mrs. Dolores Freer of 808 West One Hundred and Second street told police she experienced at the hands of a lone youth late Saturday night.

Mrs. Freer reported that she had stopped on Fremont, between Third and Fourth streets, to repair a flat tire on her automobile when her assailant walked up and offered assistance.

As she turned to show him the flat tire he grabbed her about the neck, she said, and choked her until she lost consciousness. When she regained her senses she said she found herself in the man's automobile on a dark street. There, she said, he attempted to strangle her, struggling desperately, she succeeded in breaking her assailant's hold and jumped from the automobile.

Fearful that her attacker would catch up with her, Mrs. Freer said she ran as swiftly as she could for five blocks to an oil station. There she notified police. Mrs. Freer described her assailant as being of about 28 years of age, light complexion and heavily built, wearing a light suit and soft straw hat.

DECORATION CONFERRED ON DE MILLE

'King of Kings' Wins Film Director Membership in Order of Holy Sepulcher

Cecil B. De Mille, film director, has been made a member of the Order of the Holy Sepulcher.

The supreme head of the body, His Beatitude, Damiano, orthodox patriarch of Jerusalem, admitted De Mille into the order as an officer for his services to Christendom.

The only other Americans honored have been Bishop Manning of New York and the late President Harding. It was said at the De Mille studio.

The order, membership of which is limited to 350, is said to have been founded by Constantine the Great, 325 A.D., in Jerusalem in memory of his sainted mother, Helena, who found the three crosses, one of which the Redeemer died.

Decorations of the order, together with formal letters of election, were transmitted to De Mille by the Knight Grand Cross, Lieut. Gen. Fritz Holm, Duke of Kohnstorf, of Charlville, France. The insignia arrived yesterday. It includes a golden cross in the center of which the Christ and the Bethlehem scene are pictured, and in tiny cavity is a splinter of the asserted true cross. The inscription in Greek confers the Patriarch's blessing and enjoins the recipient faithfully to guard the Sepulcher.

FLORAL PARADE SEEN BY 50,000

(Continued from First Page)

See, first, and Wanda Harding, second.

Three winners of special float prizes were Yvonne Stone, Audrene Brier and La Volme Benskin.

WALKING DIVISION
Best doll - buggy-Owendolyn Copeland, Virginia Rose Payne and Geraldine Shannon.

Best baby-buggy-Marylyn Lucille Victor and Bobby Jacobson.

Best tricycle-Mrs. Longworthy and Martha Lee Sparks.

Best toy wagon-Thomson Thompson and Belmont Besley.

Prettiest butterfly-Jean Clarine Southall and Joan Lavada Robble.

Best flower-La Verne Kirsh and Margaret Wallace.

Most original-Mary Louise Miller and Evelyn Mills.

Best fancy dress-Audrene Brier and Betty Jane Graham.

Best impersonation-(Dolly Sisters) Jay and Mittie Halperin, second, Frances Whitford.

Best kiddie-car-Margery Miller and Sheldon Tompkins.

Best comic-Mickey McGuire and the Tootle Kins.

Best twins-Ruth and Ruby Klemmer.

STREET PAVING ORDERED
The paving of Two Hundred and Fifty-second street from Belleport avenue to the west boundary of the city has been ordered by the City Council.

LITTLE RED BOOK AROUSES HER IRE

Mrs. Hazel Barrett

The mere fact that Lovelace Barrett, having a poor memory, was so ill-advised as to keep a little red book with the names of a great many young women noted down in it was not in itself a practice that would have got him into the divorce courts. But when his memory failed to the extent of leaving the little book in a suit of clothes hanging in the communal closet, why, that was serious, indeed.

So now, he is the defendant in an action filed for Hazel Barrett, his wife, by Attorney Walter Ham, and the little red book, much to the disturbance of the dozens of young women named therein, will be Exhibit A. The telephone numbers and street addresses also are a matter of record.

WOMAN IN NET AFTER POISONING

She and Husband Said to Have Attended Show as Victim Lay Dying

Mrs. Florence Lasalle and her husband Francisco, calmly attended a picture show while Mrs. Josephine Palminio, 30 years of age, lay dying their room as the result of drinking poison and water given her by Mrs. Lasalle, according to police, who are holding the woman on a charge of suspicion of murder and her husband as a material witness.

After the show they returned to the home of the apartment house at 1613 East First street and placed it in a corner of the back yard where it was found later.

According to police, Mrs. Palminio, who lived at 154 North Clarence street, had gone to the Lasalles for assistance, as she was in a delicate condition. Mrs. Palminio was given a mixture of lyeol and water by the Lasalle woman, and a little later was unconscious.

She was placed on a bed in the Lasalles room but could not be revived. Then, police say, Mrs. Lasalle refused to let her husband call the police, fearing that she would be placed under arrest. They went on a picture show to "wait and see what happened."

The woman died while they were gone.

Lieut. Stevens, according to the police report, traced the asserted crime to the Lasalles by following marks which showed where the woman had been lying down, dragged down the stairs and into the yard. The body is at the County Morgue.

Business Girls Will Have Week of Camping Out

Business girls will have a week-end trip to the Y.W.C.A. Camp Estelle in San Antonio Canyon, two miles beyond Camp Baldy, Saturday and Sunday, June 30 and July 1.

The party will go by motor, leaving the association at 1:30 p.m. Saturday and returning Sunday at 7:30 p.m. Reservations for the Y.W.C.A. 941 South Figueroa street, before Thursday.

Long Beach Y.W.C.A. girls are in camp at Camp Estelle for this week. Miss Alta Hutchinson and younger girls secretary of the Long Beach Y.W.C.A. and seventy-five high-school girls with ten counselors are having a very active time, swimming, horseback riding, hiking and living in the out-of-doors.

Los Angeles Junior high-school girls will go to Camp Estelle from July 16 to 30. The camp is limited to seventy-five girls a week, therefore it is necessary to register two weeks in advance.

The Y.W.C.A. party to Honolulu will leave Saturday, July 7, on the S. S. Calawalt. Others wishing to join this party may do so by making reservations this week with Miss Stevens at 941 South Figueroa.

LITTLE GIRL HELPS MOTHER GET DECREE

"Daddy never gave mother more than a dollar at a time. My mother was very economical but he always said she spent too much."

Such was the statement of Evelyn Kirby, 14 years of age, whose mother, Mrs. Billie Blanche Kirby, obtained a divorce from Elliot Kirby, proprietor of a motion picture theater at Long Beach. The hearing of the case was before Superior Judge Guerin. Through her attorney, S. S. Hahn, Mrs. Kirby accused her husband of non-support.

The couple married at Santa Ana fifteen years ago. After hearing the testimony Judge Guerin granted the divorce.

ORATOR'S RISE RIVALS FICTION

Collegiate Champion Product of Coal Miner's Cottage

Forensic Career Started in Two-Room Schoolhouse

Story of His Life Reads Like Page Out of Alger

From a humble coal miner's cottage in the rugged mining region of southeastern Oklahoma, has come one of the most brilliant student orators of the year. He is Carl Albert, 19 years of age, who, by a unanimous vote of the judges, won first prize in the finals of the fourth annual intercollegiate oratorical contest on the Constitution last.

The slight-built, freckle-faced freshman in the University of Oklahoma and the only first-year student in that institution to win oratorical honors, is surrounded by considerable Algeresque atmosphere, despite his youth.

CAREER BEGAN EARLY
His forensic career began before he was out of knee pants while attending classes, more or less irregularly, in a ramshackle two-room schoolhouse perched atop the workings beneath which his father labored daily for his stint of coal.

Born in the rough mining country, young Albert's first schooling came in hours after such toil as his little shoulders could bear to assist in supporting the Albert cottage.

His teacher in the little school induced him to take part in the speaking exercises on week-ends and he encouraged him. Soon he left and went to McAlester to attend that high-school there. Between toll and study he always labored at his public speaking.

HAPPY FRIENDSHIP
With enough saved to insure a start at the University of Oklahoma at Norman and became a companion of John Stark, a senior in the law school, and winner of the 1927 Missouri Valley championship. It was a happy friendship for young Albert.

Stark, a senior in the law school, helped Albert, advising him on his delivery and the framing of the oration which triumphed helped the head-headed son of Oklahoma to reap honors and acclaim as a most brilliant and promising student speaker at the contest in California.

When Young Albert, scarcely higher than the speaker's stand, finished his oration in the Auditorium on Thursday night, he was greeted with a storm of applause lasting several minutes. But more than that he was rewarded with a check for \$1500, the first prize, which will go toward financing his way further in college.

POPULARITY GROWS
Then again at a banquet of the Better American Federation at the Biltmore Friday night it was conceded that he eclipsed his oratorical mark of the night before. Demands for his presence at churches and at clubs are increasing and each appearance adds to the boy's popularity.

He is a modest and unassuming chap, possessed of that indefinable quality of personality which enables him to reach his audience with ease and grace. He has in a degree a captivating presence similar to that of Col. Lindbergh, which made the flyer the much-loved hero of three continents.

Albert is to be on the coast for two weeks. But he is soon to get back to Oklahoma University, where he works in the registrar's office. He graciously accepts the lionizing here but his serious nature does not permit him to forget that there is law to be studied back in the Bonner State.

PARK PROJECT WORK TO BEGIN

(Continued from First Page)

Coldbrook to Crystal Lake, while the road from Big Pine camp will join the main highway in the north park of San Gabriel at a point slightly above the site for the San Gabriel Dam.

On the desert side of the mountains, or by way of Palmdale, one will be able to drive to Big Trees Camp and from there follow the new roads, when completed, across Elus Ridge, Prairie Fork and the east fork of the San Gabriel to the main highway and thence to Azusa and Los Angeles, a distance of sixty-five miles as against 110 via the present route.

Strong probability that the motorist will have still another choice of roads from Palmdale lies in the fact that definite action soon is to be taken on the proposed highway extending to Antelope Valley and connecting Los Angeles, Pasadena and other cities of this district with the cities of the valley and the north, and the further fact that there is a strong sentiment favoring the construction of this proposed highway through the San Gabriel Mountains.

Financing of the greater portion of these new mountain highways is being borne jointly by the Federal government and Los Angeles county. The primary purpose of the highways is to facilitate the fighting of possible forest fires through making accessible isolated forest areas in the San Gabriel-Sierra Madre Mountains.

A State fish hatchery has been installed at Bynamore Flats and is in operation. From this point Crystal Lake and all adjacent streams will be stocked annually with trout.

DICE ROLLER DIVORCED

The seven and eleven refused to show for Clarence Cowardin, and so little Gloria Cowardin, his baby, had no shoes. Mrs. Ina Cowardin told Judge Guerin. "He wouldn't work at anything harder than punching out lottery tickets and rolling dice," she said. "And he wasn't any good even at that. He never supported us." She was awarded a divorce.

Vacationing in Sequoia and General Grant National Parks

Sim Crabill says:

"Have YOU seen the Big Trees and carried snow-capped peaks of California's Sequoia and General Grant National Parks? DO!"

FOR a vacation that will linger vividly in your memory and do you a world of good at the time, go to the General Grant and Sequoia National Parks. Stay among the Big Trees... oldest and largest of living things. Ride and tramp the trails of the Sierras... highest and wildest mountains in continental United States. Whip the placid lakes and brawling streams for their game and succulent trout. You'll be grateful always for the experience, we promise you.

The General Grant and Sequoia National Parks Company come to Times-Mirror Printing & Binding Company for their Direct Advertising printing. So do many other California resorts and progressive enterprises of all kinds. What we are doing and have accomplished for others will commend our services to you. Have us in for ideas and estimates. Our Service Staff is at your call... ready to suggest, help plan and prepare Direct Advertising of any kind.

Bust of Leader Given Veteran

He Remembers Famous Charge
When Col. Roosevelt led his fighting Rough Riders in the battle of San Juan Hill on Sunday, June 24, 1898, among those close behind him was George A. McCarter, now a white-haired man whose feeble steps seem to contradict the fiery gleam in his eye. The grizzled veteran was one of the most picturesque among those who attended the Rough Riders' reunion yesterday, and he was the center of interest when the boys began swapping reminiscences of the historic battle. Mr. McCarter is shown receiving a miniature bronze bust of Col. Roosevelt from Miss Gerda Landry, one of the guests at the dinner.

ROUGH RIDERS HOLD DINNER

Reunion of Survivors Marks Thirtieth Anniversary of Battle at San Juan Hill

Memories of thrilling moments at San Juan Hill were recalled by sixty survivors of Roosevelt's Rough Riders at their annual reunion yesterday. The celebration was held at the Hollywood Roosevelt Hotel and a miniature bust of Col. Roosevelt was placed beside each plate at the dinner. They were the gift of J. A. Hadley, manager of the hotel, as a souvenir of the occasion.

The reunion marked the thirtieth anniversary of the battle of Las Guasimas in Cuba and Col. Henry B. Horsey, oldest living field officer of the regiment, acted as chairman. Telegrams expressing regret at their inability to be present were received from Mrs. Theodore Roosevelt, Mrs. Nicholas Longworth, Col. Theodore Roosevelt II and other notables. Special medals which Col. Roosevelt had struck off several years before his death were awarded to several veterans who never before had had the opportunity to receive them.

Following the dinner, which was served at 1 p.m., the grizzled warriors were taken for a visit to Warner Brothers' studio, and a motor trip to other points of interest. The remainder of the day was devoted to reminiscences. An invitation was extended to all former service men and to the members of the Reserve Officers' Training Corps. The former Rough Riders came from all parts of the West.

Feathery Bird to be Carried by Human One
As the sun rises over the Pacific tomorrow morning a man who learned to fly will start to carry half-way across the continent a bird born to fly. On the way to Washington to receive the coveted award of the distinguished Flying Cross, Art Goebel, hero of the Dole air race to the Hawaiian Islands, will stop off in St. Louis to present, on behalf of Harry Sperry, a Japanese robin to Maj. William R. Robertson, who with Glenn Curtiss builds the Curtiss robin monoplane. The bird, on its arrival, will become the official mascot of the factory. Goebel brought "Mime Butterfly," the name he has given to the little robin, back with him from Japan after a recent visit to the Orient. He presented it to Sperry, recently appointed western representative for the Curtiss-Robertson manufactory, who in turn is giving it to Maj. Robertson. Mime Butterfly is orange of breast and bill, its color contrast enhanced by Alice blue wing plumage.

HINDUS IN COURT TODAY
Ravi Singh, Hindu, residents in California, who are accused of smuggling into this country four of their countrymen, are to appear today in the court of United States District Judge James to have their case set for trial. Three of the Hindus have pleaded guilty and one is to appear today to enter plea. All six are accused of conspiracy to violate the Immigration Act.

YOUR BABY and MINE
By Myrtle Meyer Eldred
Mrs. Eldred will be glad to answer all questions pertaining to babies and children. A stamped and self-addressed envelope, forwarded to this office, will bring a personal reply.
ing the baby sunbaths this summer instead of cod liver oil. My trouble is to break the baby of the 10 o'clock bottle at night. She is big and fat and healthy and I am sure doesn't need it, but she cries so that I don't want to disturb the rest of the family and so give in to her. I would appreciate any suggestions you can give me for stopping this feeding. The baby is 11 months of age and I think should sleep all night now.
A: When a baby is getting four feedings in the day time, and eight ounces of milk at each feeding, there is really no need for the night feeding and most children who get all the food they should have for their needs won't wake for this feeding. They simply break themselves. C. I. Be sure that the daytime feedings are all they should be in every particular and that the baby gets her full allotment of milk, then when she awakens at night, change her and offer a bottle of water or else a drink from a cup. Say, "Go to sleep," and leave her. The baby in bed even from the day of birth

HOUSEHOLD SUGGESTIONS

Bottle Nails
Rub machine on the bottle nails nightly and give extra oil that your system will need to the system and bottle nails will be avoided.

A Shoe Drier
A novel and good way of drying shoes is to turn on the electric light bulb and place the shoes in the light. The steady moisture without varying temperature will do away with the odor.

Yodine Stains
Yodine stains will come almost any article if washed with water. Freshen up father's white vest edging and mother's white collar with a small amount of yodine. The water when scrubbing the spots will do away with the stains.

Many housewives are various fruits together. They make delightful meals and fruit cups for the table.

ve and Palm Oils

The best true coconut soap to make.

Daily cleansing Nature's absolute rule is to keep the skin of natural loveliness is to be kept in good condition. Hands—that's Nature's creamy, soothing lotion penetrates each tiny pore, releases their accumulated dirt and powder and roughness. Then rise your face first with warm water, and pat the skin with a soft towel. A dab of oil to ward off dryness is the best. That is all, but it's Nature's that schoolgirl complexion. Just be sure you get the oil that's important. It's a beauty oil, at your drug store. Use your two hands.

SOCIAL SERVICE GROWTH

WELDED CHRISTIAN RESULT

Influence of Founder Directly to be Credited for Change, Pastor Asserts

During the days when weaklings were sent to the wilderness to be fed for wild beasts, or to die from exposure and contrast, and dark past with the present, when the unfortunate members are given legal protection and the influence of Jesus Christ.

Dr. Bruce Brown, in a sermon at South Park Christian Church, yesterday declared the world is constantly growing better, because of the gospel of Christ.

"Karma is the eastern name of the Christian dictum, 'What you sow, you reap.' This holds good in individual, national and international life. Kind or cruel fate is the unscientific way of relating a good or bad occurrence which we ourselves brought about by setting in motion some time ago causes as our present ignorance cannot figure out. The theory of Karma throws the responsibility of a wrong action or state of consciousness on the individual himself, not on others, not on Adam or Satan, though environment has its influence. It is weak and uncultured minds that drop from Karma theory to fatalism. In its cosmic significance Karma is the Karma of God, though He is not fettered by it. All our Karma bind us to mortality. Nothing but soul experience can get us beyond their influence."

SEEKS CURE FOR CRIME

IN CHANGE OF HEART

"Spiritual Understanding" is the topic of a sermon preached yesterday by Rev. W. C. Jett at the Union Church of Los Angeles. Mr. Jett said in part:

"What are some of the spiritual things which the man who has not the Spirit cannot understand or reason out? I think one that concerns us most is the way to overcome crime. Natural laws do not overcome crime. All our great educational system has done is to reveal what crime is and how it operates, and all our law courts do is to regulate it and restrict it. But neither one eradicates it. Spiritual knowledge has devised the only way which has proved effective. A change of heart. The churches stand for that method of dealing with crime, and if they try to do it in any other way they are not using spiritual discernment or knowledge."

TELLS HOW CHRIST

UPHELD OPPONENTS

Rev. O. M. Burkhardt preached at the First Lutheran Church at San Fernando yesterday on "The Great Physician." He said in part:

"On only one occasion Jesus strictly upheld his opponents. When they unceremoniously rebuked Him, saying: 'This man receiveth sinners,' he approved by adding the parables of the lost sheep and coin, and the prodigal son. This sentence expresses the exact purpose of the Christian religion. As such the Christian religion stands in a class by itself. All other forms of religion demand righteousness to begin with, but the Christian religion gives it. According to his name, Jesus is the only one who is both willing and able to receive sinners."

PRaises PAUL'S IDEA

OF GOD'S GREAT LOVE

Dr. Kerr Boyce Tupper preached at West Hollywood Baptist Church yesterday on "The Measureless Love of God." The sermon, in part, was as follows:

"Few finer passages are in the Bible than Paul's portrayal, in his Ephesian letter, of the four-fold dimension of the love of God—its breadth, its length, its depth and its height. Here is divine love so broad that it embraces all mankind, as the horizon embraces the landscape, so long none can go beyond its

CURB LOAFING

Police Commission Asks for New Rules to Curtail Unlimited Parking

Changes in the city traffic ordinances to prevent unlimited parking of vehicles in limited parking zones when persons are seated at the wheels of the machines have been asked of the City Council by the Police Commission.

EXCERPTS READ FROM

MRS. EDDY'S BOOK

"Christian Science" was the subject of the lesson-sermon yesterday in all Churches of Christ, Scientist, branches of the Mother Church, the First Church of Christ, Scientist, in Boston.

The citations which comprised the lesson-sermon included excerpts from the Bible.

The lesson-sermon also included the following passages from the Christian Science textbook: "The physical healing of Christian Science results now, as in Jesus's time, from the operation of Divine Principle, before which sin and disease lose their reality in human consciousness and disappear as naturally and as necessarily as darkness gives place to light and sin to reformation." (p. xi.)

"LIFE VIBRATIONS"

THEME FOR SERMON

Dr. E. E. Thomas lectured on "The Source of Life" yesterday at Music Arts Hall, under the auspices of the Rosicrucian Brotherhood. He said in part:

"Life vibrations have but one source and that is the sun. Sentility is a part of the death process. It is caused by the accumulation of earthly salts or so-called mineral matter. This mineral matter usually consists of lime and chalk which settles upon the walls of the arteries which become hardened and calcified and lose their elasticity. Life is a rate of vibration, a mode of motion. Death is the absence of that vibration. Every human being who is not sick or insane has an innate desire to live as long as possible. The solution may lie in an understanding of the nature of the glands."

Driver Steers

His Auto Into

Large Window

August A. Brink, 50 years of age, drove his automobile over the curb at Tenth and Figueroa streets early yesterday morning and crashed into a plate-glass window at 256 Figueroa street.

He backed out and drove to his home at 715 West Tenth street, where he was traced by police from the Central-street division and arrested on a charge of suspicion of driving while drunk.

STATE ASSOCIATION

HONORS BISCAILLUZ

Eugene W. Biscailuz, undersheriff of Los Angeles county, has been appointed a member of the executive committee of the Sheriffs, Undersheriffs and Civil Deputies Association of California, according to a communication received yesterday by Biscailuz from Donald Cox, president. A. C. Jewell, head of the civil department of Sheriff Traeger's office, was appointed a member of the legislative committee of the organization, the announcement states.

Service for Fine Furs

Cleaning—Storage—Repairing

If furs could only write their diaries, day by day! The little fur with the soiled neck that isn't cleaned—against the happy little fox that has his summer "bath"!

Just one way to keep furs properly—to keep life-like luster in them—and that way is to keep them cleaned and repaired—and give them a treat of the "Frigid North" in the hot summer months. Not to mention thus precluding the possibility of hungry moths finding summer homes and banquets in their furry beauty.

BOTH STORES—THIRD FLOOR

New Summer Negligees Are 7.95

A new bevy—ready for summer vacations! Luscious colors—distinctive fabrics in tub silk and celanese—fashioned along new and graceful lines. Others, equally important up to 19.50—in many pretty and different styles. Surely in a negligee one insists on the distinctive! This one finds at Dyas.

BOTH STORES—FOURTH FLOOR

Exquisite Silk Gowns Are 7.95

In this group—and in the group at 8.95—that firm, delightful extra quality of silk crepe de chine has been chosen—such silk as one might expect in gowns ever so much higher priced.

Tailored models offer their type of smart individuality—while those lace trimmed deftly display just enough lace of the "better" type to make them truly lovely. Pastel shades and all sizes.

BOTH STORES—FOURTH FLOOR

Fashion's Novelty Gloves 5.00

They're new—and they're different! The imported kid is soft and snug in fit—while the embroidery on the turn-down cuffs has that unmistakable Paris accent. The new colors will also delight you—Mother Goose, a new beige, fawn, silica, stone, Priscilla, as well as white and black.

BOTH STORES—STREET FLOOR

Samples
Wardrobe Trunks

Nationally known Mendel and Wheary Trunks—in steamer, three-quarter or extra sizes!

Floor samples—therefore sample priced! Not one whit of efficiency gone—just part of the prices—and a generous part.

Slightly shop-worn—in ways that matter only to the retailer—underpriced in ways that matter vitally to the customer.

—sample-priced Monday

38⁰⁰
to
88⁰⁰

ONLY 20 OF THESE TRUNKS—SO PLAN TO CHOOSE EARLY!

BOTH STORES—LOWER STREET FLOOR

comes moderately priced
in new dresses
monday
16⁵⁰

—the very newest notes of fashion-smartness, seldom found in dresses so modest in price—

solid colors—pastels—and high shades—
prints—crepes de chine—georgettes

With sleeves—and without! Note the new Bertha collar with its flattering grace—the gay print with beige contrast—the hip-tucks of the georgette—these but three of many individual styles.

Skirts—full pleated and generously smart. Little hi-ties for the slender miss—and frocks for her who is no longer slender. All smart—all stamped with that individual style-care that is unmistakably Dyas.

MODERATELY PRICED DRESS SECTION—THIRD FLOOR—BOTH STORES

Model Hats

—exclusive one-of-a-kind models

Outstanding millinery successes from the recent mid-season Paris openings are reflected here in striking creations, reproducing the distinguished smartness of the originals!

In satin—fine fur felts—soleils—velvets—fabric combinations—colors exquisite—and for everyone!

15⁰⁰ to 29⁵⁰

LOS ANGELES STORE—THIRD FLOOR—HOLLYWOOD STORE—SECOND FLOOR

fashions for wee moderns

"Sir-2-to-4"—His Suit—New at 3.95

Just as cute as kiddie-hood itself! Little flapper styles with all the assurance of a real he-man! All linen—a point mothers will appreciate, if not the young hopefuls. Copen and white—as illustrated. Not many—so be early.

BOTH STORES—FOURTH FLOOR

New Styles in Creepers 1.95

Dotted swiss and polka dot dimity—these for afternoons perhaps! Such adorable styles you will wish one of each. And sturdy broadcloth rompers—with cunning little bunnies for pockets—fuzz-button tails and all. Touches of hand work. Splendid assortment, 1.95 and 2.95.

BOTH STORES—FOURTH FLOOR

Two-to-Six Tub Frocks 1.95

Dainty voiles made the prettier with touches of hand embroidery. Or bright prints with dainty collars and cuffs—intriguing in their effort to be grown-up! Especially good values that should hurry away to wee wardrobes in a twinkling Monday.

BOTH STORES—FOURTH FLOOR

Girls' New Print Frocks 3.95

In 8 to 12 year sizes—the very smartest we have seen tumble out of their New York boxes! Lawns and dimities—cunning little cap sleeves, or sleeveless. See them!

BOTH STORES—FOURTH FLOOR

New Sweater Features 1.95

Novelty weaves—and very smart too! Pull-on styles—and a Dyas value well worth talking about for girls 8 to 14 years. Contrasting stripes at bottom for smartness—light weight for summer comfort. Wonderful at 1.95.

BOTH STORES—FOURTH FLOOR

Girls' Coolie Coats 3.95

More of them! Pretty as ever—that nice, warm wool challis that is hard to get. Cotton crepe, 1.95. Size 6 to 12 years.

BOTH STORES—FOURTH FLOOR

LA VERNE HOST TO CHURCHMEN

Annual Conference to Meet in School Town
Arrange to Entertain More Than 5000 Visitors

Noted Educators Appear on Program

LA VERNE, June 24.—After two months of co-operative preparation by all civic and religious organizations of this city, plans are completed for the annual conference of the Church of the Brethren, which will be held here from the 27th inst. to July 2.

A large number of delegates have been made to accommodate at least 5000 visitors from the North and East. It is estimated that on some days may approach the 10,000 mark.

This convention is by far the biggest event in the history of the city and one of the outstanding in the history of the church. It was originally planned to be held in Oakland, but due to a difficulty in securing desired accommodations it received an eleventh-hour change of venue.

The chairman and moderator of the convention is to be Dr. O. R. Winger, president of the Church of the Brethren in Indiana.

Insanity Plea in Check Case

ONTARIO, June 24.—Contrary to procedure in previous cases of similar nature, San Bernardino county Superior Court will try a man on an insanity charge after having found him guilty of a charge of passing fictitious checks.

A. E. Bader, Ontario ex-serviceman, was found guilty last week by a jury in Superior Court, after he had entered a plea of not guilty by reason of insanity.

Bader's attorney today has on file in Superior Court an affidavit of insanity against Bader, claiming Bader is insane at the present time and was incompetent to stand trial.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

NEW LAWS FOR AIRPORT

Ordinance Submitted to San Diego Council Gives Harbor Commission Complete Control

SAN DIEGO, June 24.—An ordinance giving the City Harbor Commission complete control of Lindbergh field, the new municipal airport, has been sent to the City Council, by the Harbor Department and will come up for consideration at tomorrow's meeting.

Although it will be a month before the field is completed the Harbor Commission desires to have suitable regulatory laws enacted, as applications for hangar space and flying privileges already are coming in.

The proposed ordinance officially designates the new airport as "Lindbergh" field and provides that the Harbor Commission not only be in control of the airport, but that all applications for privileges be made to the commission. In case of rejection of any of these applications, the action of the commission under the provisions of the ordinance, would be "final and conclusive." However, in case the applications are granted, the City Council will have the final say.

MEDICAL STUDENTS GRADUATE

Adventists School at Loma Linda Presents Diplomas to Large Class

LOMA LINDA, June 24.—Several hundred friends of the 110 young men and women who received graduation honors gathered in the great outdoor amphitheater here tonight for the annual commencement of the College of Medical Evangelists maintained by the Seventh Day Adventists here.

Practically all members of the class are planning to go into foreign lands as medical missionaries. Tonight thirty-six young men and women received degrees of doctor of medicine, having completed the four-year course and their internship. A class of sixty-eight received diplomas denoting they had finished the four-year medical course. These students receive their degree next year. A class of nine received diplomas as dietitians.

On the commencement program tonight there was a musical program and an address by C. K. Meyers, who is secretary of the general conference of the Seventh Day Adventists. Service to humanity was the keynote of his address.

The baccalaureate services were held in the auditorium in Los Angeles, where Dr. P. T. Magan, president of the College of Medical Evangelists, preached the baccalaureate sermon.

This year's commencement is of unusual interest in that the graduation class is the first to have completed its entire course under the co-operative plan which was started at Loma Linda four years ago. Under this plan the first two years of school are spent in Loma Linda and the last two years are spent in study at college, but are longer than was formerly the case.

The success of the new departure in education which the Loma Linda college believes combines the practical and the theoretical in a most ideal manner was demonstrated in the May returns of the National Board of Medical Examiners. Out of 140 candidates who took the exam, the first ten were from the College of Medical Evangelists.

Insanity Plea in Check Case

ONTARIO, June 24.—Contrary to procedure in previous cases of similar nature, San Bernardino county Superior Court will try a man on an insanity charge after having found him guilty of a charge of passing fictitious checks.

A. E. Bader, Ontario ex-serviceman, was found guilty last week by a jury in Superior Court, after he had entered a plea of not guilty by reason of insanity.

Bader's attorney today has on file in Superior Court an affidavit of insanity against Bader, claiming Bader is insane at the present time and was incompetent to stand trial.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

WEATHER OBSERVER TO AID AIRSHIPS

CORONA DEL MAR, June 24.—Antar Deraga, for several years weather observer, has resigned his position to accept appointment as official airway meteorological observer for the United States Weather Bureau for the Pacific Coast. It has been learned.

Deraga will co-operate with the Daniel Guggenheim Foundation in establishing a series of meteorological and altitudinal stations on the Pacific Coast, and will have headquarters at Lebec, Cal.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

THE PROPOSED ORDINANCE OFFICIALLY designates the new airport as "Lindbergh" field and provides that the Harbor Commission not only be in control of the airport, but that all applications for privileges be made to the commission. In case of rejection of any of these applications, the action of the commission under the provisions of the ordinance, would be "final and conclusive." However, in case the applications are granted, the City Council will have the final say.

Another section of the ordinance provides that all receipts from the airport go into the harbor fund, for port development.

Azusa-Glendora Students Champions in Oratory, Debate

Winners With Trophies of Their Contests

Boy's Bullet Near Cause of Woman's Death

UPLAND, June 24.—Target practice with a pistol in the hands of two boys, 16 and 13 years of age, respectively, nearly claimed the life of Mrs. O. W. Franks when the lead from the weapon crashed through a window, brushed past Mrs. Franks' forehead and lodged in the back of the chair in which she was sitting.

The two boys who had the pistol were Donald Benson, 16, and Thurman Mitchell, 13.

The success of the new departure in education which the Loma Linda college believes combines the practical and the theoretical in a most ideal manner was demonstrated in the May returns of the National Board of Medical Examiners. Out of 140 candidates who took the exam, the first ten were from the College of Medical Evangelists.

ONTARIO, June 24.—Contrary to procedure in previous cases of similar nature, San Bernardino county Superior Court will try a man on an insanity charge after having found him guilty of a charge of passing fictitious checks.

A. E. Bader, Ontario ex-serviceman, was found guilty last week by a jury in Superior Court, after he had entered a plea of not guilty by reason of insanity.

Bader's attorney today has on file in Superior Court an affidavit of insanity against Bader, claiming Bader is insane at the present time and was incompetent to stand trial.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

WAR HEROES TALK ON AVIATION AT BEACH

SANTA MONICA, June 24.—Capt. Brown, an American who served with the British Royal Flying Corps and transferred later to the United States Air Service, and who is officially credited with bringing down thirty enemy planes, will relate his war experiences to a group of young men at the Santa Monica City Council chamber, at 8 o'clock, according to Secretary Fieldhouse, Clover Field reserve airfield, Santa Monica.

The association is sponsoring the California Aeronautical Academy and has offered the city of Santa Monica a complete aeronautical library. Other speakers on Monday night's program will be Maj. Strange, a war ace credited with seven planes, said to be the most decorated flyer on the Pacific Coast, and a director of the national association board, Mr. Campbell. The affair is free to persons interested in aviation.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

THE PROPOSED ORDINANCE OFFICIALLY designates the new airport as "Lindbergh" field and provides that the Harbor Commission not only be in control of the airport, but that all applications for privileges be made to the commission. However, in case the applications are granted, the City Council will have the final say.

Another section of the ordinance provides that all receipts from the airport go into the harbor fund, for port development.

WIN ALL FORENSIC CONTESTS

High School Team Takes First Honors in Three Different Debate Leagues

AZUSA, June 24.—Citrus Junior College and Union High School of the Azusa-Glendora school district have attained championship heights in debating this year and for the first time in the history of the school have won cups from three different leagues. The record is an enviable one as seldom does a school carry off so many honors during one year.

Citrus has to its credit the Southern California Junior College championship; the championship of the Southern California Debating League and the San Gabriel Valley League. Citrus has held the San Gabriel Valley League Cup for the past three years.

Westley E. Smith, forensic instructor, coached the debaters who won their entry into the Southern California Debating League for the first time this year.

Outstanding among the debaters are the Shelton brothers, Age and Robert, who have done splendid work. Other of the champions from the high school are Eleanor Broadway, Gertrude Brunjes, Ruth Ma-shaw, Barbara Meier, Red, Raab, Wyatt Lewis, Otto Mason, Gus Meier, Ward Munson and Murray Scout.

Insanity Plea in Check Case

ONTARIO, June 24.—Contrary to procedure in previous cases of similar nature, San Bernardino county Superior Court will try a man on an insanity charge after having found him guilty of a charge of passing fictitious checks.

A. E. Bader, Ontario ex-serviceman, was found guilty last week by a jury in Superior Court, after he had entered a plea of not guilty by reason of insanity.

Bader's attorney today has on file in Superior Court an affidavit of insanity against Bader, claiming Bader is insane at the present time and was incompetent to stand trial.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

NEW SCOUT TROOP IN BEACH CITY

HERMOSA BEACH, June 24.—Troop No. 278 of the Boy Scouts of America sponsored by St. James Catholic Church received its charter here last night at impressive court of honor services conducted by Dr. H. P. Hames, chairman of the court of honor committee of Boy Scout work for this district.

Scout Commissioner Harry Hill made the presentations and a special first-aid demonstration was shown by Oliver Larson, Ted Covert, James Griffith and Guilbert Thorns of Troop No. 266. Boy Scout work in Santa Monica has advanced materially since the troops became connected with the Los Angeles Council, according to the report given by Scout officials last night.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

BATTLESHIP TO AID CITY IN CELEBRATION

VENTURA, June 24.—Ventura will be host to the U.S.S. Mississippi July 2 to 5. Mayor G. A. Randall today received word from Capt. C. M. Tozer, commanding the battleship, that he had been ordered to bring it to Port Ventura for the Fourth of July celebration, remaining here three days.

Mayor Randall has requested the American Legion and the Chamber of Commerce to arrange details for the entertainment of the ship, which will come prepared to participate in the Fourth of July celebration. A feature of the Fourth of July program is the tennis tournament to be staged by the Breakfasters.

Dairy Control Wins Approval of State Board

VENTURA, June 24.—The Ventura county Health Department, under the direction of Dr. J. A. King, has received word from Dr. C. U. Duckworth, chief of the Bureau of Dairy Control, in Sacramento, that the milk inspection department of the county has been officially approved by the State Board of Dairy Control. This action was announced here by M. A. Heinman, county milk inspector.

This recognition, Heinman said, grants the local department the right to grade milk and cream in accordance with the pure milk law and it gives it a standing on the same basis as other approved milk inspection departments throughout the state.

The county milk ordinance was passed on April 7, 1927, by the Board of Supervisors, creating a milk inspection department subject to the State Board of Dairy Control's approval. Work was commenced on May 7, 1927, and the quality of the milk and cream has steadily increased and the full requirements of the pure milk law have been met.

Insanity Plea in Check Case

ONTARIO, June 24.—Contrary to procedure in previous cases of similar nature, San Bernardino county Superior Court will try a man on an insanity charge after having found him guilty of a charge of passing fictitious checks.

A. E. Bader, Ontario ex-serviceman, was found guilty last week by a jury in Superior Court, after he had entered a plea of not guilty by reason of insanity.

Bader's attorney today has on file in Superior Court an affidavit of insanity against Bader, claiming Bader is insane at the present time and was incompetent to stand trial.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

REDDONDO BEACH OPENS FOR SEASON

REDDONDO BEACH, June 24.—One of the largest beach crowds in the history of the city visited Redondo Beach today for the annual summer opening festival sponsored by the Redondo Beach Municipal Band and the Redondo Boosters Association.

The festival opened with a carnival dance last night and was featured by three open-air free vaudeville shows today, aquatic stunts and dancing. Band concerts were furnished both afternoon and evening by the Redondo Municipal Band and the boys' band.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

CELEBRATE FOURTH AT BEACH RESORT

HUNTINGTON BEACH, June 24.—The bathing-beauty parade, to be held in Huntington Beach, July Fourth, will be restricted to entrants from Orange county, it was announced by R. F. Patrick, general chairman of the American Legion committee in charge of the arrangements.

A parade will be held in the morning, beginning at 9:30 o'clock. Water sports will be held at the city pier from 10:30 a.m. to noon, under the direction of Gene Belshie. From 1 p.m. to 1:30, there will be vaudeville acts. The bathing girls' contest will follow. Sports, a band concert and fireworks display will carry the entertainment to evening. A girls' orchestra will be heard before the pyrotechnical display.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

PAYS FORTUNE FOR PERSONAL TAXES

VENTURA, June 24.—A single check for \$234,834.59 was deposited by Harry Van De Linder, County Treasurer, today. It is the second largest check received by County Assessor William Reese on secured personal property taxes and was paid by the Shell company here. The check of the Association of Shell Companies, which amounted to nearly \$500,000, was the other and largest of the unsecured property-tax payments. Thus far, Mr. Reese has collected more than \$800,000 in personal property taxes, and he said about \$180,000 was the estimated amount yet to come in.

QUAKERS MEETING IS ENDED

Annual Sessions of Friends Church Close After Successful Conference

WHITTIER, June 24.—With the devotional meeting held tonight at the First Friends Church, the thirty-fourth annual session of the California Yearly Meeting of Friends Church passed into the history of the church, as one of the most harmonious and far-reaching in its influences that the California Quakers have yet held. The meeting was attended by members of the denomination from the entire Coast and the Middle West.

At the closing business sessions yesterday resolutions of appreciation were passed among them being the following directed to the Los Angeles Times:

"Whereas, the Los Angeles Times has taken a very strong editorial position in favor of outlawing war and in favor of world peace, and

"Whereas, the California Yearly Meeting of Friends Church has always had a record of working for these same ends.

"Therefore, be it resolved, that the California Yearly Meeting of Friends Church hereby commends the attitude of the Los Angeles Times for the stand it has taken regarding the outlawing of war and in favor of world peace."

An innovation is to be inaugurated next year at the annual session. For thirty-four years the meetings have begun on Monday and ran through the week ending on Sunday evening, with the last day of the meeting being on Monday.

Among the highlights of the conference or yearly meeting as the Friends prefer to name the assembly was the sending of a congratulatory letter to Hon. Herbert Hoover, the Republican candidate for President, who is a highly devoted Quaker. This letter was worded in the "plain language" of the Friends, using "thou" instead of "you," and having the simple sentence, "Dear Friend."

The alumni of Friends Colleges in America held the annual luncheon Saturday and sixty colleges and academies were represented. Dr. Walter F. Dexter, president of Whittier College, removed his report to the Board of Education of the church. This disclosed the condition of the college in the present condition. Allen U. Tomlinson of Whittier is the president of the assembly each year.

Pupils Learn How to Save at Alhambra

ALHAMBRA, June 24.—Alhambra school children during the past school year have been taught practical lessons in thrift, with the result that for the period from October 17, 1927, to June 15, 1928, school savings amounted to \$181.53. The children started their savings account in each school with small deposits, usually 5 or 10 cents.

As the individual savings were withdrawn by the students in this manner.

Frement school led in the number of deposits and percentage of deposits. At that school 4358 deposits were made during the year for a percentage of 42.30. The deposit amounted to \$181.53. The school was highest in the amount of deposits, its thrift money totaling \$72.71. Granada school was highest in the average amount of deposits, 27 cents.

The thrift program will be resumed next fall with the opening of the school, with \$141.29 remaining in the accounts.

"BAYWIDE" LUNCHEON

VENICE, June 24.—A "Baywide development luncheon" will be held at the Ship Cafe, Venice pier, at noon tomorrow. The luncheon will be given by the Venice Business Men's Association, host, holds a joint meeting with the Ocean Park Business Men's Association. The luncheon will be held at the Venice pier, at noon tomorrow.

TO REMODEL SCHOOL
TALBERT, June 24.—Vote of the Fountain Valley grammar school district will ballot July 3 on the proposal to issue bonds to \$100,000 with which to remodel the school building and add rooms.

TO FIRE JUDGE TUESDAY

PASADENA, June 24.—Judge Frank G. Dwyer is scheduled to be decapitated by the Board of Prison Commissioners on Tuesday, June 26, at 10 o'clock. Wednesday is the day of execution.

CONFERENCE LITTLE TRAIL

Two Hundred and Fifty Come to Pasadena

PASADENA, June 24.—The annual conference of the Little Trail of the Pacific Northwest, which was held here from June 22 to 24, was a success. The conference was held at the Hotel Pasadena and was attended by more than 250 delegates from the various churches and schools of the Northwest.

At the closing business sessions yesterday resolutions of appreciation were passed among them being the following directed to the Los Angeles Times:

"Whereas, the Los Angeles Times has taken a very strong editorial position in favor of outlawing war and in favor of world peace, and

"Whereas, the California Yearly Meeting of Friends Church has always had a record of working for these same ends.

"Therefore, be it resolved, that the California Yearly Meeting of Friends Church hereby commends the attitude of the Los Angeles Times for the stand it has taken regarding the outlawing of war and in favor of world peace."
